GERMANS CLAIM THEY'VE ADVANCED

"The Germans have stopped the general offensive of the Allies on the Western front, and have gained considerable territory," declares the Berlin foreign office.

FRENCH CLAIM THEY'VE ADVANCED

"The new offensive movement of the Allies has resulted in a further gain in the Artois region, near Souchez. Additional progress made," declares the French office.

GERMANS AND ALLIES CLAIM GAINS; GREECE STILL PREPARING FOR STRIFE

WAR OFFICERS SEND DIFFERENT STATEMENTS

Berlin, Sept. (via London, 4:28 p. m.)—The Germans not only have stopped the general offensive of the Allies on the Western front but by counter attacks have gained considerable territory for themselves, according to today's official statement by army headquarters.

Paris, Sept. 28 (1:40 a. m.)—The new offensive movement of the Allies has resulted in a further gain in the Artois region, near Souchez, the French war office announced today. Additional progress is reported in Champagne. The German counter attack in the Argonne is said to have been repulsed. The Germans left the ground before the trenches covered with dead.

The Germans are offering determined resistance in Champagne. The positions to which they have retreated are protected by a system of barbed wire entanglements.

London, Sept. 28.—The French are now battering the second line of German defenses in Champagne, while the British, to their north, apparently have been able to crush all German counter attacks. So far as can be ascertained, the situation on the western front as created by the allied offensive of Saturday and Sunday, is about where it was. The diversion initiated by the German crown prince in the Argonne at some places reached the first French line, but nowhere did they

Greece Not Deterred By Bulgaria's Pacific Promise

London, Sept. 28.—"The pacific assurances of the Bulgarian minister at Athens have not had the effect of altering the determined position of Greece, which nothing short of a Bulgarian demobilization can alter," says Reuter's correspondent at Athens. The victory of the allies in the Champagne dispelled the last vestige of sympathy for the Central Powers which have been losing ground since the Bulgarian mobilization. The

Bulgaria And Greece Agree, Says Berlin Report

Berlin, Sept. 28. (By Wireless to Seville)—The Overseas News Agency says that according to reliable information Bulgaria and Greece have agreed upon the establishment of a neutral zone between those two countries. The suggestion of a neutral zone

the news agency says, was made by the members of the Greek general staff who acted in concert with King Constantine. The overseas news agency adds:

"Bulgaria agreed and there is no doubt that she is ready to yield to Greek wishes about the Serbian territories of Dobruja and Gergeli. This means that the attempts of the entente allied powers have been frustrated."

AUSTRIAN NOTE IS ON WAY

Washington, Oct. 29.—Ambassador Penfield notified the state department today he had received Austria's reply to the first American note answering Vienna's first communication protesting against the shipment of war supplies to the Allies. The new note described as very long and a legal answer to Secretary Lansing, now is on the cables. The text already has been published in Vienna dispatches.

Hell Family Has It On The Dams

Farrell, Pa., Sept. 28.—The world famous "Dami" family bids fair to lose its prestige to the "Hell" family of this place. Conrad Hell, father, is an ice cream manufacturer. His signs read, "Go to Hell for ice cream." Over his place of business he has a painting showing a man and girl eating ice cream. The girl is saying: "Hell for mine, always."

MRS. LODGE IS DEAD

Nahant, Mass., Sept. 28.—The sudden death of Mrs. Henry Cabot Lodge, wife of ex-Senator Lodge, at her home here last night, was announced today. Mrs. Lodge was 65 years of age. Death resulted from heart disease.

Mrs. Lodge was the daughter of Rear Admiral Charles Henry Davis, U. S. N., and was born at Cambridge in 1850. She and Senator Lodge were married shortly after his graduation from Harvard in 1871.

During the thirty years that Senator Lodge has been in public, Mrs. Lodge had divided her time between her home on the Rocky promontory jutting into Massachusetts Bay, and their winter residence in Washington.

FRAUD TRIAL ON IN PARIS

Paris, Sept. 28.—The trial of Hans Scapira, Paris representative of A. Musica and Sons, of New York, who was charged with defrauding bankers and others of sums aggregating \$250,000, was begun yesterday in the correctional court.

The accused declared in his defense that he himself was a victim of the Musicas, having lost his own money which he invested in the United States Hair company. The case was continued.

The Musicas, father and three sons, were arrested in New Orleans in 1913, charged with swindling banks here and abroad by false importations and exportations of hair goods.

PRIMARIES ARE HELD IN NEW YORK

New York, Sept. 28.—Primaries were held throughout the state today for the selection of candidates of all parties for state and county offices to be voted for in the fall election. As there will be no gubernatorial election this year, the highest offices for which nominees will be chosen today were those for justices of the supreme court.

The contest between Charles A. Perkins, the present district attorney, and Frank Moss, for the Republican nomination for district attorney of New York county, aroused the greatest interest in this city.

Venus Is Not In It With This Woman, Judges Say

Miss Nana Sterling.

A host of judges in a contest recently conducted by a well-known health magazine adjudged Miss Nana Sterling of Houston, Texas, the most perfectly formed American woman. Miss Sterling, who is nineteen years old, is five feet six inches tall and weighs one hundred and thirty pounds when ready for the bath. Her bust and hips equally measure thirty-eight inches, her waist twenty-six inches, her neck thirteen inches and her calf, fourteen inches.

The statue of the Venus de Medici, in the past regarded as the ideal type of womanly figure, and depicts a type that might weigh nearly as much as Miss Sterling, but would certainly be far less strong and active. Her chest measures over four inches less than Miss Sterling's, although her hips measure only one and one-half inches less. The judges in awarding the honor to Miss Sterling maintained that if the Venus de Milo or Medici does not like to be big longed American girl athletes, it is up to the Venus to play tennis and basketball. Miss Sterling is as strong as she is symmetrical, as her balancing and gymnastic work have put the strength of an athlete into her muscles.

BLAST KILLS WORKMAN
Cincinnati, Sept. 28.—Carver Aydstock, 21, a workman at the plant of the Peters Cartridge company at Kings Mills, Ohio, was instantly killed today when an explosion occurred in one of the rifle mills, where the powder is ground for rifle cartridges. The building was blown to pieces. No other persons were hurt and the loss is said to be about \$5,000. The cause of the explosion has not been definitely determined.

LOAN COMMISSION ARRIVES IN CHICAGO

Chicago, Sept. 28.—Four of the Anglo-French credit loan commissioners arrived in Chicago today and were greeted by a commission of prominent bankers and business men. Among the latter was J. Ogden Armour, the packer. Others were James B. Forgan, president of the First National Bank; George M. Reynolds, president of the Continental and Commercial National Bank; John W. Scott, president of the Commercial club, which is host to the visitors; Samuel Insull, president of the Commonwealth-Edison company; John A. Spoor, president of the Union Stock Yards and Silas Strawn and John Barton Payne, representing the bar association.

The commissioners here are Baron Reading, Sir Edward H. Holden, Basil Blackett and M. Ernest Mallet. They were accompanied by Thomas W. Lamont of J. P. Morgan and company. The overnight trip from New York was said to have been without incident.

Formal greetings were exchanged at the hotel where rooms had been reserved and the reception committee then departed, leaving the commissioners free until noon to receive any callers who might desire to meet them. Neither Mr. Armour nor Spoor mentioned the cause of the seizure of American funds by the British prize courts. Baron Reading in a talk with newspaper men declared the idea

that the trip was taken only with social objects in view. "We came to Chicago to talk business," he said. "We are going to have a meeting with the bankers, perhaps today. I can't say that it will be a strictly formal affair but it will be a business gathering."

U. S. WILL TENDER DUMBA SAFE CONDUCT

Washington, Sept. 28.—Dr. Constantin Theodore Dumba, the ambassador from Austria, telegraphed the state department today from the summer embassy at Lenox, Massachusetts that he had been ordered home by his government and asked that a safe conduct be arranged for him.

In the light of advice from American Ambassador Penfield, at Vienna, that the Austrian foreign office had given informal assurances that Dr. Dumba would be welcomed as asked by President Wilson, the state department considered Dr. Dumba's dispatch today as a notification that official action had been taken by Vienna and will arrange for his

Asks Operation To Restore Sanity

Macon, Mo., Sept. 28.—Oliver Seeley, recently placed in jail on a charge of attempting to break into a dentist's office, has made application for a medical inquiry. He says he has been a thief ever since he can remember, but he thinks surgeons could, by removing a bone that is affecting his brain, restore him to a normal mental condition.

FIVE DIE IN WRECK

Philadelphia, Sept. 28.—Five men were instantly killed and eleven others were injured, six probably fatally, in a tunnel on the Philadelphia and Reading railway at Phoenixville, near here today, when a passenger train rushed through a big gang of truck men. The men killed were foreigners as also were those injured. The train bore down upon the men so quickly that they had no time to escape. The passengers on the train were thrown into a panic when the brakes were suddenly applied but they were soon quieted by the train crew.

DEPOSED, HE RUNS AGAIN

San Francisco, Sept. 28.—Eugene E. Schmitz, who was deposed from the office of mayor as a result of the graft prosecution in 1906-07, went before the voters of San Francisco again at today's primary election as a candidate for head of the city government and was second choice in the betting in a field of eight candidates. Odds of ten to seven were offered that Mayor James Rolph, Jr., would poll a larger vote than Schmitz.

Schmitz was deposed after being convicted on a charge of extortion. The candidates for 16 other municipal and county offices were to be voted on today.

DESIGNING CUBIST DOLLS IS HER HOBBY WHEN SHE'S NOT ACTING FOR THE MOVIES

Miss Helen Fulton.

Miss Helen Fulton, who acts the part of the sweet, dainty and lovable type of girl for the Edison company, finds that she needs recreation after her exacting labors under the supervision of the scenario director and in her leisure moment takes to designing cubist dolls. When she tires of this she writes one-act plays, and some day she hopes to be able to button-hole a producer who may accept them.

55 ARE KILLED IN EXPLOSION

Ardmore, Okla., Sept. 28.—The death list as a result of yesterday's gasoline and ensuing dynamite explosion here was brought up to fifty-five this afternoon when the bodies of a man and two small children were found on the former site of the Atchison, Topeka and Santa Fe railway freight depot. Of the dead thirty-six are white and nineteen negroes.

Ardmore, Okla., Sept. 28.—With the expectation of unearthing a score or more of bodies rescuers continued searching today the ruins of business houses and public buildings for victims of yesterday's explosion of a tank car of gasoline.

Thirty-six bodies already have been recovered. First estimates of fifty dead and \$500,000 property damage still were unchanged officially but it was believed that these figures would prove too small when the final story of the disaster was written.

In addition to bodies believed to be still in the ruins it is feared that 200 persons were injured, making a probable death list of three score. Investigation of the cause of the disaster was started by the city executives today. It is supposed that a spark from a hammer of one of the workmen repairing the car ignited the gasoline. Eye witnesses said flames shot into the air for a distance of 200 feet immediately preceding the disaster was written.

"TRENCHES FILLED TO BRIM WITH BODIES"

Paris, Sept. 28.—"Infantry attacks began at noon Saturday," said a soldier wounded in the Champagne fighting, in describing the operations which resulted in an important gain for the French. "My regiment was acting as a support. For three days our artillery had been making an appalling din by day and night. Big guns hurled shells without respite."

"We infantrymen, waiting for the end of it, began to get impatient. Saturday we ate heartily at 11 o'clock and then looked over our arms. Finally, at noon, our chiefs shouted 'Forward.' We began to cheer, and with a single bound were out of the trenches. It was pretty hot in front of us."

"The boys who had gone ahead were doing good work and were already beyond the German trenches. We reached them in our turn at the double. The trenches were filled up to the brim with German bodies. Farther on we saw enormous craters in which many Germans had been buried by fallen earth. We didn't stop long but pushed on."

"To our right we saw a strong enemy contingent shelled with a machine gun. They didn't last long for we fell on them with the bayonet. It was a pretty stiff bit of fencing. Seeing themselves done for, the survivors held up their hands. Some, however, although prisoners, still fired at us. My left hand was pierced by a revolver bullet fired point blank by an artilleryman. My captain knocked him down and sat on his chest."

All of the wounded who have arrived here were covered from head to foot with chalky mud. Most of them were wearing the new light steel helmets which they declared had saved thousands of lives. One who had no helmet and whose head was cut by glancing

BISHOP HARTLEY CONFIRMS A LARGE CLASS AT ST. MARY'S

Welcomed by the chimes that he consecrated a year ago, sounding Adeste Fideles and other appropriate hymns, Rt. Rev. James J. Hartley, bishop of Columbus, made a canonical visitation and administered confirmation at Holy Redeemer church Monday evening and similarly officiated at St. Mary's church Tuesday morning.

Immense crowds attended the services which were of a solemn and impressive character. A multitude of converts to the Catholic faith, and children to the number of 117 at Holy Redeemer church and 103 at St. Mary's church, received the sacrament of confirmation. At the former church the bishop explained the meaning and purposes of the visitation, as well as the sacrament of confirmation, and on the duties of Catholics as citizens. The bishop's remarks at St. Mary's were addressed particularly to the children whom he called upon to obey the commandments of God and the church. Bishop Hartley is at his best when addressing the youth and he was listened to with rapt attention by the little ones.

Assisting in the ceremonies were the local pastors, Rev. Fathers J. E. McGuirk and T. A. Goubel, of this city, Rev. Father Henry J. Richter, pastor of St. Patrick's church, Henley; Rev. Father Thomas Carey, pastor of Sts. Peter and Paul's church, Wheelersburg; Rev. Father Geo. Gressel, of the Cathedral in Columbus.

SOCIETY

One of the happiest occasions in the life of Mildred Norman, bright young daughter of Mr. and Mrs. Clayton Norman, was the celebration of her ninth birthday at the home of her parents, 1407 McConnell avenue, Monday afternoon. Quite a large number of her little friends and companions gathered at her home, where they assisted her in the celebration of her natal day. All present had a most delightful time, while Mildred was happily remembered by a shower of pretty and appropriate gifts. Mrs. Norman was assisted in caring for the little guests by her sister, Mrs. F. W. Sheridan. Delicately prepared refreshments were served. The favors were tiny dolls. The Norman home was appropriately decorated for the occasion, and when at eventide the guests bid Mildred goodbye, they expressed the hope that she would have the pleasure of celebrating many more such happy events. Those present were: Mildred Moore, Elizabeth Whit, Clara Mason, Fay Hamilton, Florence Atkinson, Irene McClave, Emma McClave, Dorothy Kratzer, Evelyn Kratzer, Helen Colley, Jean Sheridan, Phyllis Sheridan, Doris Sheridan, Malcolm Philippi, Georgia and Margaret Varney, Ada Stewart, Helen Whitley, Naomi Shoemaker, Naomi Pitts, Edith Ballack.

The United Brethren parsonage at South Webster was filled to overflowing on last Monday evening, when one hundred and ten persons of the village met there and assisted in giving the minister a surprise, which proved a great success. The surprise came in double form, when Rev. Bostick called in the early evening at the home of Mr. George Kratzer, and this gentleman could not possibly spend the evening at home because of needed attention to business, when the disappointed minister made another call at the home of Mr. John Bostick, who is a teacher in a nearby school district, was meeting friends and music, then before closing time at the store, so the preacher was left to return home, just in time to receive these gentlemen together with the rest, namely: Messrs. and Mesdames Charles Potts, Mrs. Ash, J. W. Laro, Ben Walker, Jack Ruff, Fred Potts, Dr. Storchman, Mr. Sapp, Mr. and Mrs. Wm. Hawner, Mrs. Mossberger, Mrs. Cook, Mr. Geo. Ash, Mrs. Frank Scott, Mrs. Wm. Tripp, Mrs. Ed. Bauer, Gilbert

Havener, Virgil Ruff, Mrs. F. Kuhn, Mrs. Scott, Mrs. Stroth, Mrs. Kallenbach, Mrs. Grant, Mrs. Emory, Mrs. Gabler, Mrs. Baesman, Mrs. Wood, Mrs. Blair, Mrs. Kallenbach, Mrs. Scott, Mrs. Potts, Mrs. Allen, Mrs. Cook, Mrs. Morris, Mrs. Warner and the Misses Laura Morris, Lennie Potts, Dora Stroth, Anna Potts, Lela Grant, Anna Kallenbach, Ollie Potts, Harriet Kallenbach, Blanche Potts, Edna Kallenbach, Elizabeth Bauer, Garnet Gilliland, Gladys Morris, Edna Martin, Cora Aeh, Goldie Neff, Maude Kruker, Myrtle Kruker, Mary Grant, Della Johnson, Katie Scott, Stella McCall, Catherine Ruth, Lela Bouts, James Stroth, Edward Kallenbach, Edward Fenton, Mildred Ruth, Earnest Ruth, Raymond Mitterdorf, Reinard Cole, John Wallace, Orin Stephens, Alan Williams, Charley Call, Albert Callens, Lawrence Ash, John Potts, Edward Cole, Fred Mossberger, Edward Call, Wilbur Scott, Raymond Potts, Harry Potts, Harold Ruth, Everett Scott, Walter Heller, John Bouts, Abe Hanes, Delmar Scott, Stanley Mitterdorf, Stanley Ruth, Herbert Scott, Harvey Aeh, Roy Potts. After everybody had greeted the new (?) minister with a welcome and filled the dining table with numerous gifts, they proceeded to gather a program from the crowd. Mrs. Warner was called upon to give one of her recitations, which she did in a most eloquent way. Temporarily being the interesting subject, after which the preacher sang "The Brewer's Man's Big Horses Won't Run Over Me."

Mrs. Gny Potts, formerly Miss Julia Graff, was persuaded to entertain with the allegory, "My Sweetheart of Years Ago." The Quartet singers were then called for and Gilbert Havener, Walter Heller, John Bouts and Rev. Bostick sang "Eternity," which was appreciated by all. Other songs were sung by all present with the mandolin and guitar accompaniment. The hour for departure came, but not before the preacher had expressed his appreciation for the interest and respect shown him, not only by his own people, but the Methodist, German Evangelical and Baptist folks as well. Rev. Bostick was returned by conference to the work here and is ready to render his untiring efforts for the salvation of souls this year, as faithfully as last year. Prayers and song, "Blest Be the Tie" closed this evening's entertainment and everybody reluctantly returned to their homes, feeling that "it was good to be there."

CENSOR BOARD REJECTS SOUTHERN PICTURE

Columbus, Sept. 28.—The state board of motion picture censors today rejected a widely discussed film depicting scenes in the south during the reconstruction period and will not permit it to be exhibited within the state. Two reasons were assigned for turning down the film, that it might arouse prejudice between the North and South.

The film has been the storm center of discussion in many parts of the country where it has appeared. In Boston and Philadelphia it was said to have been the cause of

numerous race riots. It is generally considered by motion picture people one of the biggest things of its kind yet attempted and shows on a large scale numerous scenes which are alleged to have occurred immediately following the civil war.

Mr. Cross is one of thousands of sufferers from catarrh and other ailments who have received relief after taking the celebrated medicine Tanlac. Mr. Cross resides in Sciotoville, Ohio. He recommends as follows regarding the "Master Medicine."

"A great quantity of water has run under the bridges during the time that I have been troubled with catarrh of the head. I can notice good results from the Tanlac treatment. As a great many people know, my father was a practicing physician. I have

great faith in Tanlac." At this time of year the tonsils of Tanlac has shown signs of special value to hundreds, and there are many others who declare that it has benefited them greatly when they were suffering from catarrh, rheumatism, liver, kidney and stomach troubles. The best druggists in the various cities report that they are astounded at the results that they are having on Tanlac; that they have never experienced anything similar. Tanlac is aptly called the "Master Medicine," and is sold in Portsmouth by the Fisher & Streich Pharmacy, at the corner of Sixth and Chillicothe streets.

Living Models

Manager A. Kline of the Fashion, Gallia and Gay streets, announces an elaborate showing of fall gowns, cloaks, blouses and millinery Friday, October 1. Living models will display the gowns. Music will be furnished by the Buckeye Band Orchestra with Prof. Mastropaulo leading. The public is cordially invited to attend.

TO DECORATE BUILDINGS

Mayor Frick gave orders Tuesday to have all of the city buildings decorated immediately for the Korn Carnival.

MAY LOCATE IN THE EAST END

There is a possibility of the East End getting an undertaking establishment within the next few days. L. Higgins, of Washington C. H., has located here and he is figuring seriously on engaging in the undertaking business in that section of the city.

JUDGMENT FOR DEFENDANTS

Judgment in favor of the defendants was returned in common pleas court Monday afternoon in the case of Virginia Mickledwait against Guy Ackley, Thomas Baird, John H. Baird and Thomas D. Baird, the latter two minors. The case was an appeal from Squire Byron's court, where the plaintiff reclaimed a piano from Guy Ackley last May. Ackley claimed the piano belonged to Thomas Baird, of Stenhouseville, who had placed it in his charge. The plaintiff also claimed the piano. An order from the court to return the piano to Ackley's house was complied with Monday evening.

RALLY WEEK AT Y. W. C. A. Want New Boston Site
IS GIVEN AUSPICIOUS START For Catholic Church

Rally Week at the Young Women's Christian Association started on auspicious Monday evening with a banquet in the dining room of the Association building at Second and Gay streets. Eighty-five were present. An informal reception preceded the banquet.

Guests of honor were the local ministers and their wives, the trustees of the Association and their husbands, and representatives from the ladies' societies of the various churches in the city. Others of prominence at the banquet table were Miss Harriet Harrison, city secretary of the field committee, of Cincinnati, Miss Katie Heacock, the new general secretary of the local Association, and Miss Edith Britton, the new physical director.

After the excellent spread an informal program was carried out, featured by musical selection by an orchestra under the direction of Miss Alice Blake.

The objects of the present Rally Week were tersely explained in informal talks by Mrs. Henry Heer, the new president, Miss Harrison, and Miss Heacock. It is hoped during the week to arouse the interest and co-operation of the Christian people of Portsmouth in the work of the Association to the end that its activities during the fall and winter season will be productive of great good in the community.

Mrs. Heer briefly outlined the plans of the board of trustees for the coming year and urged each member to devote enough time to the movement to insure a successful year's work.

Miss Harrison's subject was "The Relation of the Church to the Association," in which she urged more co-operation on the part of the churches of the city with the work of the Association. She favored the opening of the churches more often for social affairs, particularly those which would appeal to the younger people and promote a better community feeling. By so doing, the churches would be invaluable aid to the Association in providing wholesome recreation and innocent pleasures for the younger folk, who are sometimes compelled to seek them in other quarters. Miss Harrison's talk made a strong impression upon her hearers, who felt the significance of her argument.

Much interest was centered in the remarks of the new secretary, Miss Katie Heacock, who impressed all who heard her with the enthusiasm with which she entered into her discussion. Miss Heacock has devoted time and study to the social aspect of city life for young girls, and is qualified to speak on that subject. She is thoroughly imbued with her work, and the manner in which she has taken hold of affairs at the Association indicates that the trustees have made a happy selection of the one who is to assume the lead in the work of meeting the needs of young girls in this city, providing wholesome surroundings for them, securing for them the proper leadership, and improving their social.

On Saturday afternoon Miss Edith Britton, physical director of the Y. W. C. A., expects to offer corrective gymnastics for school children. This is a vital part of a child's education, because it has actually been shown that without the correct posture it is impossible for the other organs and parts of the body to function as they should. By allowing the head to drop forward the stomach has been shown by X-ray to drop from one and one-half to two inches. If the organs are displaced the circulation is interfered with and in this condition the organ is much less efficient.

With this work will be combined games and plays, the object of which is to give the child recreation and the right idea of fair play.

Trial Is Put Off

John Smith, prosecuting witness in the case of the State of Ohio against John Washington and Ollie Sanders, indicted for robbery, failed to appear to testify Tuesday morning and the trial of the two negroes had to be postponed indefinitely. A subpoena has been issued for him, and he will be brought in as soon as he can be located.

Washington and Sanders are accused of having held up and robbed Smith last August in this city. They will be defended by Attorney N. B. Gilliland, who was appointed by Judge Thomas to defend them.

Judgment Awarded

Judgment for \$422 for the plaintiff was awarded in common pleas court Tuesday morning by Judge Thomas in the case of Alton Wamsley, executor of the estate of the late George Ralstin against Eberhard Mess and Margaret Mess. Foreclosure of the mortgage on the property given as security for payment was ordered if the defendants fail to pay the judgment.

MAKE FOUR ARRESTS IN ELECTION FRAUD

Pittsburgh, Sept. 28.—The police early today added another man to the four prisoners they already held in connection with the alleged ballot frauds in last Tuesday's primary election. They gave his name as Hugh Getty, and with his arrest said they had the situation in the first ward well in hand. Other arrests were promised as soon as evidence that had come to them during the night could be confirmed. This evidence, it was said, concerned attempts made yesterday to secure possession of ballot boxes from the polling places where they were stored after the ballots had been counted.

"TIZ" FOR SORE, TIRED FEET—AH!

"TIZ" is grand for aching, swollen, sweaty, calloused feet or corns.

Ah! what relief. No more tired feet, no more burning feet, no more swollen, bad smelling, sweaty feet. No more soreness in corns, callouses, bunions. No matter what ails your feet or what under the sun you're tired without getting relief, just use "TIZ." "TIZ" is the only remedy that draws out all the poisonous excretions which puff up the feet. "TIZ" cures your feet trouble so you'll never limp or draw up your face in pain. Your shoes won't seem tight and your feet will never, never hurt or get sore and swollen. Think of it, no more foot misery, no more agony from corns, callouses or bunions. Get a 25 cent box at any drug store or department store and get instant relief. Wear smaller shoes. Just one box of "TIZ." Get a whole year's foot comfort for only 25 cents. Think of it!

Preliminary steps towards locating a Roman Catholic mission church at New Boston were taken by Rt. Rev. James J. Hartley, Bishop of Columbus, Tuesday afternoon.

COMPLIMENTS SCHOOLS

Bishop Hartley, of Columbus paid the St. Mary's and Holy Redeemer schools an inspection visit Tuesday, complimenting the sisters of St. Francis and the pupils on the splendid condition of the schools. The children, at the request of the Bishop, were given a half holiday. Bishop Hartley returned to Columbus on an afternoon train.

BRICK BAT USED IN SCRAP

Mrs. Bessie Kennedy following a lengthy hearing at which the lie was passed a dozen or more times and where family degrees were vigorously read by all parties to the trouble, was fined \$10 and costs by the mayor Monday evening for her act in splitting Mrs. Clara O'Rourke's ear with a brick bat.

Mrs. O'Rourke, her sister, Mrs. Lulu Pyles, and their mother Mrs. Mary Kevernier, who were charged with disorderly conduct, were dismissed.

TERMINALS

Arthur Johnson, N. & W. truckman at the Columbus freight house, had several toes on his right foot badly mashed Monday. He was pushing a truck loaded with bags of buckshot when the truck turned over, the bags of shot falling on his foot. The company physician dressed the mashed toes.

Pendleton Lewis, employed as truckman at the N. & W. freight house at Columbus, had his left foot slightly mashed Monday. Lewis was carrying a case of canned goods when the box slipped from his hands and fell on his foot. The company physician dressed the injured member and moved Lewis to his home.

J. T. Carey, Scioto Division superintendent, spent Tuesday in Cincinnati on business.

The excursion to be run to Cincinnati, Sunday, by the N. & W. will be the last of the season. A special train will be run from Portsmouth at 7:15 a. m., but tickets for the excursion will be sold for train No. 32 at points between Williamsport, W. Va., and Portsmouth.

H. T. Reinicker, Scioto Division assistant superintendent of the N. & W., was in Kenova Tuesday on company business.

Harry Kinder, N. & W. car repairer, is receiving the congratulations of his fellow employees. A baby son arrived at the Kinder home several days ago.

John Thomas, N. & W. steno-grapher, who is enjoying his fifteen days' vacation, is having a fine time.

THEATRICAL

Southern Beauties Big Hit At The Sun
"The Southern Beauties" made a big hit with the Sun patrons yesterday, playing at three capacity houses. Also the show was pronounced by all to be the best show of the kind that has as yet been seen in Portsmouth.

To see this show, one can almost imagine that they are witnessing a big one-act and a half musical comedy instead of an imitation, for it has every semblance of the real thing.

Eleven people compose the company, seven girls and four men, and each individual has something to do, and does it well.

The comedy was called "The Widow Green" and tells a funny story with a lot of up-to-date songs and choruses intermingled.

The dressing of the chorus was most attractive and they are a bunch of highly trained workers. The singing was away above the average.

Highest standard materials used by Bremer, the Painter. 117

The Movies

Mary Pickford in "Rags" Columbia Tonight

Mary Pickford, called by many "the spirit of the screen," whose every appearance in motion pictures is as much an assurance of entertainment value as Tiffany is of jewelry merit, is appearing in the picture of Edith Barndelano's latest novel, "Rags," a title and a character that fit the star as has no other play in which she has ever been presented, even including her last screen triumph, "The Dawn of Tomorrow," and "Little Pal."

This five-part production of the Famous Players Film Company on the Paramount program is a delightful combination of comedy and drama, both of which elements of the story are thoroughly human. After the perfect acting of Mary Pickford, the story deserves the greatest praise.

"Rags" is the daughter of a drunkard, who abuses and mistreats her, but whom she loves with all the ardor of her strong young soul. Her mother was loved by a wealthy man, to whom, however, she preferred the worth-

less man she married, dying after the birth of her daughter. How "Rags", through the invisible influence of destiny, becomes so entangled in the web of fate that she meets the nephew of the man whom her mother rejected, and falls in love with him, though realizing that his social position is too far above hers to ever permit a marriage between them, and how eventually her mother's lover learns of her unhappiness and takes her to his palatial home to live with him, where his nephew again meets her, and in the new surroundings renews his love, are convincingly and sympathetically related in the photoplay.

This is considered "Little Mary's" best picture since "Tess of the Storm Country" and you had better come early as she is sure to have a big reception to-day with this picture.

First evening show at 6:30, then at 7:45 and 9:00. Evening prices adults, 20 cents and children 10 cents.

The Slim Princess' At The Lyric Tomorrow for the One Day Only

You'll wait a long, long while before you get to see a more pleasing, more satisfying picture than George Ade's charming romantic comedy drama "The Slim Princess," Essanay's latest and greatest masterful production. Francis X. Bushman, Ruth Stonehouse, are superb in the leading roles and the entire supporting cast is one that deserves unstinted praise. It is one of the most elaborate photoplays ever made, rich in the color and beautiful settings of the Orient. It is filled with intense and dramatic action with an undercurrent of George Ade's whimsical humor that completes its charm. Critics all over the country who have reviewed the play are unanimous in stating that "The Slim Princess" will be hard, if not impossible, to surpass.

The first show will be at 1:30 sharp. The admission in the afternoon will be 10 cents for adults and 5 cents for children and in the evening the first show starts promptly at 6:10. Admission in the evening, adults 20 cents, children 10 cents.

Pauline Frederick, one of the foremost emotional artists of the American stage, who achieved a great personal triumph in her initial motion picture characterization in the superb photo spectacle, "The Eternal City," returns to the screen in an overpoweringly dramatic photo production of "Sold," the great drama of woman's devotion, adapted from the Russian of George Erastov. As the wife of the poor artist, who poses for his successful rival in order to obtain funds for her husband, who detects and misjudges her, Miss Frederick is completely overwhelming in the intensity and strength of her portrayal. This stirring five part photoplay will make an indelible impression on the minds of all who witness it at the Lyric theatre on Friday next.

At The Exhibit
William Farum considered the greatest favorite and the strongest dramatic actor in the country is taking the leading role in the four reel powerful feature Samson appearing at the Exhibit theatre tonight. The story tells of the rise of a laborer to a master of finance and a man of millions. A gripping love story runs all the way through the picture and shows a big man's exhausting battle with the little love god.

Wednesday's attraction is entitled "The Patriot and the Spy" a thrilling war drama in four

reels. James and Marguerite Snow are starred in the picture.

5c Temple Theatre
No more thrilling story has ever been told than "The Light House Keeper's Son," which saddens the heart of man. Of the summer months are gone and winter months are here, the bird song is hushed and the waves of the cold seas descend silently upon the rocks of bitter years, together with its symbolic beauty. This picture carries a lover's sacrifice. The third reel's title is "The Little Hero," featuring George Orey the "funniest man in America."

Chaplin Review At Arcana Tonight
When one comes to consider that it is claimed by film people, who are supposed to know, that twenty million people pay each day to laugh at Charles Chaplin, there seems to be plenty of reason for Manager Potts to arrange for the "Charlie Chaplin Review" which will be presented to-day at the Arcana.

The Chaplin Review consists of five reels of Mr. Chaplin's most popular successes and in this film he is supported by an array of comedy stars, the like of which one seldom sees in one evening's entertainment. Among the most prominent is Mabel Normand, Mack Sennett, Roscoe Arbuckle and Ford Sterling.

This is the first time the Review has been attempted in films. The Chaplin Review is fashioned after the famous Ziegfeld Follies, presented each year at the New Amsterdam Theatre, New York City. This theatrical production has become an institution in New York, and its arrival each year is awaited with keen interest. It is considered by far the theatrical event of the season.

in order to accommodate the crowds. This attraction is presented at popular prices. Adults, 10 cents, and children 5 cents.

Jungle Pictures At The Strand

Marie Walcamp and Wellington Flyer are considered to be without peers in the production of wild animal dramas.

In "A Daughter of the Jungle," two reel Bison, they have achieved the seemingly impossible. Lions and tigers attack the actors before the camera lens.

"The Village Smithy," Jockey farce comedy, is a picture that will certainly please you. Max Asher, Gale Henry, William Franny and Lillian Peacock are featured.

At The Majestic

William S. Hart is taking the leading role in a gripping two-reel drama, "The Ruse," appearing at The Majestic theatre tonight. This is a powerful story, telling of the actions of a gang of crooks and a good man's fight against them. The other picture is entitled "A Ten-Cent Piece." This is also a good two reel feature, making four exceptionally entertaining reels on tonight's program.

Tomorrow's feature is entitled, "Mercy On a Crutch," a two reel picture.

FORT WAYNE CAR SERVICE IS STOPPED

Fort Wayne, Ind., Sept. 28.—More street cars were in operation on the city lines today than yesterday when the tie up was brought about by a strike of 200 members of the matrons' union who demand recognition of their union. Fifteen men were said to be strike breakers and a few of the men who returned to work this morning were operating the cars. There were few passengers. There was a big crowd around the cars, but no trouble was reported.

Mayor W. J. Hosey has offered his services as arbitrator and hopes to arrange a conference between representatives of the union and the company today.

GRANDMA USED SAGE TEA TO DARKEN HAIR

She made up a mixture of Sage Tea and Sulphur to bring back color, gloss, thickness.

Common garden sage brewed into a heavy tea with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant, remove every bit of dandruff, stop scalp itching and falling hair. Just a few applications will prove a revelation if your hair is falling, gray or dry, scraggly and thin. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use tonic, costing about 50 cents a large bottle, at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of fuss.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

AS TO FEE SPLITTING.

A new law has gone into effect in Ohio which makes it a crime for physicians and surgeons to split fees, and it is encouraging to note that the law is backed by the great majority of the reputable physicians of the state. It seeks to correct an evil that has grown to some proportions and which has worked out to the serious disadvantage of patients, especially those compelled to undergo operations.

Writing of one phase of fee splitting in the Chicago Daily Tribune, Dr. W. A. Evans says that "an open fee splitter confesses his incompetence. The very competent operators do not split fees. They know they are competent and they get, and will get, the business which comes to them, on a basis of merit. The operators who split fees, are second and third grade operators. Therefore a patient who is being disposed of by a fee splitter among fee splitters, may be certain that the best he can get, is one of the best he can get among second or third grade men. He can be certain that he never has a chance to get the services of any high grade man, of any man good enough to get business on his merit alone."

Dr. Evans then asks this significant question—"If physicians barter patients among fee splitters as a commercial transaction, will not unnecessary operations be the inevitable result? If a physician diagnoses an infected appendix and sends the patient to a fee splitter, it is not possible that the diagnosis will be confirmed, regardless of the condition found, and an unnecessary operation done?"

It is suggested that those about to undergo operation, investigate for themselves, satisfy themselves that they are getting a square deal from their regular physician, and also that the reputation of the man who is to operate upon them is above suspicion or question as to the fee proposition. It is an easy matter to satisfy one's self before an operation. It may be too late to find out after the operation that the patient has gone to second or third grade man.

HIGHWAY PATROL SYSTEM.

The attorney general has ruled that under the new law the county surveyor does not have charge of the highways, bridges and culverts under state control until designated by the state highway commissioner to have charge. It is further held that the state highway commissioner may establish a system of patrol maintenance of state roads, and the county superintendent, under direction of the commissioner, may establish such a system for county roads. This is opened at last a practical method of caring for the roadways and it is to be hoped that County Surveyor Harper will avail himself of the provisions of the new law at the earliest opportunity. Under the patrol system a man is appointed to have charge of a certain number of miles of county or state road and he is held responsible for the upkeep of his section. If a rut develops, he is supposed to fix it up, in its incipiency and not wait until the break has spread over the road for a considerable section. The patrolman looks after his section just as do section men on a railroad, and keeping his road up to a high state of efficiency. He is the man who is on the job all the time, ever keeping a watchful eye for signs of deterioration of any part of the road under his control.

The advantages of such a system of maintenance is apparent to every one. It is a system that has worked out to splendid advantage in other states and it is about the only method by which steady and permanent care can be taken of roads.

It will, of course, take a little time to get into working condition under the new road law, but as soon as practicable, we would like to see the patrol system tried out here. We believe it will be most satisfactory and, in the end, be much cheaper.

We met a man who has real money the other day and he remarked that he recently bought a block of Chesapeake & Ohio stock, laid it away in his strong box and expected, in the course of the next few years, to realize handsomely upon it. He got in at a low mark and already the stock has advanced twelve or fifteen points. This man is not a speculator. He just watches for investments and banks on his judgment to make good. He said that once he held a certain stock ten years before he got his money out of it. No, we are not advising you to buy C. & O. or any other stock. This investment is purely a matter for you to work out yourself, or to talk over with your banker.

Just as a matter of civility, we would like to ask Prosecuting Attorney Micklethwait if that agreement with the C. & O. Northern in regard to pikes which he is now condemning, was not drawn up by himself? If so why did he not give the commissioners the benefit of his criticism before the contract was signed. If he drew the agreement, was he not obligated as legal adviser of the commissioners and as the law officer of the people, to advance any safeguards that might suggest themselves to him?

The more we read about Serbia and the Serbians, the less reason or sense we see in the rest of Europe fighting about her. A more poverty-stricken, unprogressive, unattractive country would be hard to find anywhere on this earth.

OUR GROWING ENTHUSIASM.

SLAMMING PROSPECTIVE GUEST.

Of course since the B. & O. S.W. has not yet put palace cars into commission on the Branch, we have not been able to sample the kind of cooking that obtains in the domicile of Editor Funk, of the Oak Hill Press, but still it seems to us that it is very bad form to talk about a prospective guest the way Funk did about us in the last week's issue of his paper. He must be afraid that we will eat him out of house and home and in his fright seeks to head off our visit. But he can't do that for we are more than ever determined to go to Oak Hill and re-establish our reputation along conservative and temperate lines. Of course after being slammed as we were in the article which is appended, we shall have to be a little cold and distant in manner. Here is the offending article:

"The Portsmouth Times paragrapher ate, at one sitting, the whole of a fourteen layer cake baked by that estimable woman, Miss Irene Houston, and has at other times partaken of meats equally as big, yet he is still hungry. Harry must either have a very sweet tooth or a big stomach. He is always looking for something to eat. He watches The Press pretty closely as is shown by the following:

"It is fine to be a country editor. Up at Oak Hill Editor Funk is being showered daily with all sorts of good things and he is kept busy acknowledging the presents in his valuable journal. A basket of peaches, a basket of tomatoes, a lot of 'fine juicy apples which the wife made up into the finest pies and has ever seen in Oak Hill,' a 15 pound head of cabbage and a few messes of 'big healthy beans' were among the things that found their way to the larder of this fortunate editor. Who would not be jealous of a man with such a constituency? Why, we are minded to move The Times plant up to Oak Hill and consolidate."

"Now we would not mind a consolidation of The Times and The Press plants—there is no product would be a world better—but we could not possibly stand for an associate editor with such gastronomic fancies as Mr. Taylor possesses."

"The Times man is jealous of our constituency, and right well he might be. There are no better people on the face of the earth than are found in and around Oak Hill."

Lawrence county commissioners are after traction line contractors on account of their destruction of roads. That is all right for the contractor has slaughtered some sections of the Portsmouth-Fronton pike. But it has not been so noticeable because the rest of the same pike from the Scioto county line on into Franklin is so fearfully bad that the new bad places are noticeable only as other new bad places.

Many a woman who just doted on narrow skirts last year would be inexpressibly grieved if she had to wear one with her new fall suit this year. We saw a wide, fluttering skirt go down street yesterday, and in it was a very contented woman. Her husband wears trousers of the vintage of 1913, and a hat just like one he wore in 1908 and is equally content. Gallipoli Tribune.

UNDER VAGUE INFLUENCES.

We take the following from a Cincinnati dispatch to show the influence upon legislators of their so-called reunions: Representative John P. Kramer of Richland County, Democratic floor leader, and Representative L. T. Cronley, of Mt. Vernon, both known as conservative members of the Democratic and Republican sides of the house, said they see clearly how seriously the cities need power to provide more funds.

Now we know with whom these legislators have been talking. It has been with the contractors, the politicians and the money spenders generally, and not with the taxpayers who want their communities conducted on the basis of their needs and not of their whims. The tax payers have to bear the brunt of these legislative reunions because the tax spenders and their allies are the men with whom the legislators are brought into contact.

The Cincinnati people raised \$15,000 to entertain these legislators. Why? For the general welfare? Don't you believe it. These jamborees are as far distant from the general welfare as the North star is from old Canopus. The public good is not advanced by such demonstrations. There is nothing lofty or inspiring about them. Having a good time at somebody else's expense doesn't prepare a man for courageous duty.

And then, if these legislators have time to accept favors and go cavorting over the land, why do they not spend some of it in studying their duties to the people, so they will be able to use it to draft legislation that the attorney general and the supreme court are forever trying to tell the meaning of. The spirit that takes delight in jamborees is not the spirit that is behind clear and wise legislation.

We were much interested the other day in the interview given out to the press by the Rev. Mr. Connell, former pastor of Bigelow church. And then we were more interested in reading a volume called "The Damnation of Theron Ware", which was loaned to us by one of our friends as a sequel to a little discussion we had about the Connell case. The "Damnation" book is decidedly apropos and we suspect that our churchy friends of mature minds might also be interested in reading it.

The government moves slowly, its wondert to perform, and it refuses to take into account matters of local moment. Thus the steps have been torn away from our post office building and at the rate the work is progressing it is a dead sure bet that the work of reconstruction will not even be fairly started by Korn Karnival time. A more inopportune time to start the work could not have been selected.

We refuse to get blue over yesterday's weather because we just feel in our bones that the weather man is going to give us the best kind of weather in the shop for our Korn Karnival. He gave us a bad deal last year, but he is going to make it up this time. See if he doesn't.

DO YOU RECOGNIZE THIS?

In the October Metropolitan there is a little automobile story entitled "It Can't Be Done Without a Blue Book", in which there is a clever description of a detour road that will instantly appeal to every motorist. Here it is:

"Do you know what a detour is? It's the motorists' jinx—the meanest thing that can happen on any trip, and there's liable to be an epidemic of 'em any time in any parts of the country. It comes without warning, like measles or mumps. It makes a gloomy Gladden tour out of a pleasure trip, an endurance contest out of a car which may become impatient and bust. A detour takes you through woods and fields laid out or down like a scenic railway, with boulders on the track and ditches on the side. As a dog shakes a rat, so a detour shakes an auto, while the poor pleasure seekers call out the reserves from every muscle in their corpuses to hang on, as they cuss and strain and weep through the awful ordeal. You're simply lifted back to the trail blazing pioneer days and every man is his own ancestor."

It would be fine to have the Mound Builder relics secured at the Tremper mound displayed here during the Korn Karnival, but it is doubtful if they will be allowed to leave the museum at Columbus. They may be considered too valuable to run the risk of transportation. Anyway we hope a point can be strained and the relics shown here.

People who have been over the paving on the Buena Vista pike say that Contractor Monroe has done a fine piece of work. Now when the West Side gets the new bridge, the new towpath and the new hill road, it will come into its own again.

NEW-YORK-DAY-BY-DAY.

O. O. MCINTYRE.

New York, Sept. 28.—Romio or Paris are not more tender hearted toward the "crime passionnel" than New York. James Montiglia was killed by Olivia Bellini. Her paramour had cast her off because he was tired of her. There was no dispute as to the facts. The judge used every effort at the trial to check any emotional appeals.

The woman's two babies were removed from the court room and he did not permit her to testify to events leading up to the crime and he told the jury that a woman has no more rights than a man before the bar. The verdict was simply "Not Guilty."

There was not even a compromise of manslaughter or a lower degree of murder. The jury de-

ecided that the killing was no crime. The woman cannot be placed in jeopardy again and in the judicial annals of the South there was never a more perfect example of the "unwritten law."

It isn't often that the fat ladies get the chance, so back to the sparkling waist ad in a New York newspaper:

"Good opportunity for bright young lady with large corporeity."

National guardsmen are getting angry too over the harm they believe the "I Didn't Raise My Boy to Be a Soldier" song has done. Captain Charles J. Dieges, of the state guards, writes the following parody:

I didn't raise my boy to be a coward;
I want him to be brave and good
and true,
I'd disown him if he were not
really
To die defending country or virtue.

It seems to be generally agreed upon that nobody raised Capt. Dieges to be a poet. Either that or "virtue" must be pronounced with a sneeze emphasis on the final syllable.

The passing on of Anthony Comstock takes away probably one of the best known figures in New York. Sometimes his name came into ridicule by excess of zeal but the net result that he accomplished was good. Many times he stamped out evils and other times he convinced the public how ridiculous prudery is.

Forty-three years ago indecent books and pictures were sold openly by vendors on Broadway. There was a law against it but no one was especially appointed for its enforcement.

Subway construction in New York has been fraught with more fatalities than the actual operation of trains in the completed tubes, exclusive of persons run down by trains. The collapse of the street about the subway workers, last week, however, marked the worst catastrophe of all.

Whether the shoring of the subway out in Seventh Avenue was cardboard or whether the persons in charge of the blasting were criminally careless remains to be disclosed.

Nine hours after last week's subway accident—at five o'clock on the same day patrons of twenty-two moving picture theatres in the city were seeing on the screen views of the disaster. The book-ings were made by phone.

E. A. Bushnell, the cartoonist, after leaving the New York Eve-

ning Mail decided to go to California on some special work which he began to get letters from editors out west asking where his cartoons were. Bushnell decided that if they wanted them enough to ask about them they would buy them so he will remain in New York and syndicate a daily cartoon over the country.

YOUR GLASSES

To be pleasing must be right in design, dimensions and adjustment. They cannot be that unless expert attention has been given to details in the making, size and shape of lenses, suitable to your face and features; form of nose clip, to hold securely without over-expressing; suitable length of bows to hold firmly without pulling; rightly curved and angled bridge to prevent cutting; proper placement of axis and lens centers to preserve muscle balance. Attention to these details is what makes Carr optical service the best. Prices surprisingly moderate and glasses recommended only when necessary.

60 Day Extension
In Injunction Suit

Columbus, O., Sept. 28.—An extension of sixty days more time is given by Judge Slater to the injunction which stops the D. & O. S.-W. Railway Company from interfering with the use of the track and facilities between Bloom Station and Jackson, O., by the Detroit, Toledo & Ironton Railway, the extension to date from October 2. The D. & O. S.-W. also is allowed sixty days additional in which to enter its plea to the suit brought by the D. T. & I. was irregular.

Painter Is Injured
In A 25 Foot Fall

Fred Handgrave, a local painter, fell from a scaffold on which he was working, Tuesday afternoon, and despite the fact he fell a distance of 25 feet, he escaped with minor bruises. Handgrave was working on a Twelfth street home, when in some manner he lost his balance and fell from the scaffold.

SAYS GREEK PREMIER
FAILED IN ATTEMPT

Berlin, Sept. 28.—(By wireless to Sayville)—The Overseas News Agency says: "The Athens correspondent of the Lokal Anzeiger reports that he is able to confirm the rumor that Premier Venizelos of Greece failed in the negotiations which he attempted recently to open with the Rumanian government. This is considered as a definite indication of Rumania's attitude. The correspondent adds that public opinion in Greece is being manifested more strongly against a literal interpretation of the Serbo-Greek compact, obligating Greece to support Serbia in case of attack by another Balkan state, as Greece has been released from this arrangement by the action of Serbia."

THE MARKETS

NEW YORK STOCKS

New York, Sept. 28.—Indications pointed to another active session with many more high records at the opening of today's market. Baldwin Locomotive was again the central feature, its initial sales ranging from 119 to 121 1/2 against yesterday's close of 113 1/2, and passing its previous record by over 7 points. New maximums were also made by General Motors up to 372, Bethlehem Steel 2 to 368, Laclede Steel 2 1/2 to 82 1/2, United States Industrial Alcohol 7 to 78 and Crucible Steel 2 1/4 to 103 1/2. Other specialties in which gains averaged 2 points included Republic Steel, Sloss-Sheffield steel, East Iron Pipe, American Locomotive, Tennessee Copper and Distillers securities. Railroad issues were again ignored.

Baldwin Locomotive continued to climb, touching 126 1/2 and a few other specialties added to opening advances but the market showed less capacity to absorb the enormous realizing sales which were on a larger scale than yesterday. Heaviness in the railways, representative shares, averaging declines of a point for 2 Canadian Pacific, United States Steel was distinctly under pressure, falling to 78 1/2, a point under its early high. At noon the list manifested further variable tendencies with a spurt of 3 points of Colorado Fuel at 58 1/4. Bonds were firm.

Baldwin Locomotive unsettled the list later by ascending to 150 and then declining precipitately to 123. Reactions in similar run from 3 to 10 points. The closing was irregular.

All recent records for activity and violent price changes were broken in today's market, some specialties fluctuating from 15 to 35 points.

It's Hard To Have To Wear Glasses

But for those who are advanced in years, and a good many who are still young in these days of eye strain, it is an absolute necessity. The main thing is to be sure that the glasses fit your eyes; otherwise there is likelihood of a permanent injury to your eye-sight. The only way is to purchase your glasses of a responsible optician.

explosion which scattered the flaming liquid for blocks, thus starting scores of fires in the buildings, wrecked by the concussion.

Most of the persons killed were crushed under falling walls, some of them more than a block away from the scene of the explosion.

Ardmore today virtually was under martial law while business was suspended to permit the work of rescue to proceed with greater speed. One hundred special deputies had been sworn in to prevent disorder.

The downtown business section presented a picture of disaster, one block of Main street, from the railroad station to the Whittington hotel, having been razed, by the explosion, many buildings on the opposite side of the street destroyed and the plate glass fronts of nearly every store in town damaged.

The city was in darkness last night, the electric lights having been cut off owing to the danger from prostrate wires. Many instances of heroism and freakish results of the explosion were recounted today by persons who witnessed the explosion and themselves with slight bruises.

Many clocks about the city, stopped at 2:35 o'clock, are curious reminders of the explosion. The loss in plate glass alone has been estimated at \$50,000.

LIBERTY BELL TO MAKE MANY STOPS

Philadelphia, Sept. 28.—Seven additional stops were added yesterday to the already long itinerary for the return trip of the Liberty Bell from the Panama Pacific Exposition at San Francisco at a meeting of the sub-committee on arrangements. This action will be ratified if it was stated by the general Liberty Bell committee. This makes a total of eighty-three cities and towns which will act as hosts to the famous relic for periods varying from three days at the San Diego exposition, to five minutes at the majority of points visited. The additional stops decided upon yesterday include Middletown, Ohio.

Plan Raising Funds To Fight Referendum

Columbus, Sept. 28.—Plans for raising funds to finance the campaign against the referendum on the Sprague congressional redistricting law were made today at a meeting here of about 40 Republican state and county leaders. Although no formal announcement was made and the meeting was secret it was reported that agreement was reached to solicit contributions from a number of Republican office holders over the state with the plea that the redistricting bill must be saved for the good of the Republican party. State leaders insisted that county chairmen and other Republican politicians support the law.

Among those attending the Republican leaders' conference today were: Charles F. Dick of Akron and Harry M. Daugherty of Co-

lumbus, Judge D. D. Woodmansee of Cincinnati, candidates for the Republican nomination for United States senator; Congressman R. M. Switzer of Gallipolis, Congressman-elect R. C. McCullough of Canton, Congressman-elect H. I. Emerson of Cleveland and Congressman-elect J. G. Cooper of Youngstown; Representative William K. Sprague of Portsmouth, author of the redistricting law, Lieut. Governor Arnold, J. S. Kalston of Columbus, Budget Commissioner E. M. Pullington, Secretary of State Charles Q. Hildebrandt, State Oil Inspector C. W. Carr, C. W. Bayse of Dayton, Henry Zoumer of Athens, Julius Whiting of Canton and N. H. Fairbanks of Springfield. About 15 county chairmen also attended the meeting.

Old Veterans See Message Of Peace

Washington, Sept. 28.—Veterans of the Grand Army of the Republic, in their forty-ninth annual reunion, awoke here today to see wig-wagged from the dome of the capitol a message of peace.

Men who were boys fifty years ago, returning again to celebrate a mighty conquest, had climbed during the night the long, winding stair that lead to the Statue of Justice, which crowns the capitol, and had flared to the warring old world a word of hope for peace.

This was the ushering in of the second day of the Grand Army assemblage, which will reach its height on Wednesday, with the re-marching of the men who returned from Appomattox in 1865, to receive the plaudits of the nation. The survivors who made the climb at the capitol, were members of the Veterans' Signal Corps and old comrades on Georgetown Heights flashed back an answer.

The veterans had before them a day of sightseeing tours about the defenses of Washington and expeditions to historic spots, the day to be brought to a close with an address of welcome from President Wilson in the reunion headquarters at Camp Matthew G. Emery.

PAY MILITARY HONOR TO CREW OF F-4

Washington, Sept. 28.—Full military honors were accorded fourteen unidentified victims who lost their lives when the United States submarine F-4 mysteriously sank at the entrance to Honolulu harbor some months ago. Their dismembered bodies in four caskets, were buried in the Arlington National Cemetery, the services being attended by high officials of the navy and others. As the flag draped caissons were drawn along Pennsylvania avenue from the Washington Navy Yard to Arlington, thousands of Civil War veterans and others attending the Grand Army to the Republic encampment lined the street and uncovered their heads in reverence.

The bodies which were recovered only recently after having been submerged for months, were in such condition as to make their individual identification impossible. There were 21 aboard the submarine. Four bodies were identified and buried elsewhere. The names of the seventeen unidentified, including three whose bodies never were recovered were given by the navy department as follows:

Officers: Lieut. Alfred Ede, of Reno, Nevada, who commanded the F-4 and Ensign Timothy A. Parker, of Kentucky.

Enlisted men: Clarke G. Buck, Tacoma, Washington; Ernest G. Canvin, New Orleans; Harley Colwell, Seattle; Walter F. P. Cavington, Port Worth, Texas; Geo. L. Deeth, Portland, Oregon; Alston H. Grindle, San Francisco; Edwin S. Hill, Etowah, Tennessee; Francis M. Hughson, Los Angeles; Albert P. Jennie, Festus, Mo.; Archie H. Langer, Erie, Pa.; Horace L. Moore, Germantown, Pa.; William S. Nelson, New York; Frank G. Pieward, Laverne, California; Henry A. Withers, San Diego, California and Frederick Gilman, St. Louis.

The funeral escort was composed of all the regular troops and blue jackets in this vicinity. Religious services at the cemetery were conducted by Chaplains M. C. Gleason, attached to the Newport Training Station and J. B. Waser, attached to the Norfolk Navy Yard. The usual military ceremonies were observed at the cemetery including the firing of musketry and the sounding of taps.

Secretary Daniels, Assistant Secretary Roosevelt and a large delegation of naval officers, including the members of the advisory council, attended the services. Mrs. Ede, widow of Lieutenant Ede and relatives of several other F-4 victims also were present.

2,000 RETURN TO WORK AFTER STRIKE

Lawell, Mass., Sept. 28.—Approximately 2,000 employees of the United States Cartridge company's plant here returned to work today after being out two weeks on a strike. The working force ordinarily consists of about 2,000 men, one half of whom, it is said, are still out. The company, according to its officers has agreed to abide by any decision of the state board of arbitration on the question of wages after an investigation of local conditions. The strikers voted last night not to return to work.

PRISONER KILLS ONE, POSSE IS ON TRAIL

Salem, Oregon, Sept. 28.—Three posses were close on the trail early today of Otto Hooker, an escaped convict, who shot and killed Harry P. Minio, superintendent of Oregon State Penitentiary, last night after he had previously wounded J. J. Benson, city marshal of Jefferson. Both officers were shot while endeavoring to take Hooker into custody.

Marshal Benson was wounded by a bullet from his own weapon, which was wrested from him by Hooker during a hand to hand encounter. Minio, who was at Albany, was notified and he at once organized a party to search for the outlaw. Hooker was encountered two miles north of the town. Shots were exchanged but none of the party was struck, except Minio, who died instantly. It is thought Hooker escaped unhurt.

Hooker escaped from the prison work gang during the afternoon. He had served a year of a sentence for burglary and was considered a quiet prisoner.

Bible Students To Discuss Prohibition

Columbus, Sept. 28.—Bible study in many phases was discussed in addresses made today before the first Ohio State Bible Class convention at its opening session here. Hundreds of delegates from all parts of the state attended the meetings, which will continue through tomorrow evening.

Prohibition also was a prominent subject for discussion by speakers and among delegates. It was said action probably would be taken before the convention closes to endorse the prohibition amendment.

The first session today was devoted to a conference of adult superintendents of Sunday schools Bible class leaders, pastors, county prohibition workers and Sunday school officers.

Dr. J. D. Derling, of Columbus, secretary of the Ohio State Sunday School Association, was on the program for an address, and Edmund

F. Arras, of Columbus, had a paper on the subject, "Adult Class Organization and Enrollment." Rev. Charles L. Fisk, of Cleveland, superintendent of the Ohio Congregational Sunday school, and Publishing Society, was on the program for today. President W. G. Clippinger, of Otterbein College, Westerville, presided.

25,000 EXPECTED TO STRIKE IN CHICAGO

Chicago, Sept. 28.—A strike of practically all workers in the men's clothing industry in Chicago was expected today. Between 20,000 and 25,000 men and women will obey the order not to return to their benches in the 400 shops, union leaders said.

The call for a general strike was issued last night after the manufacturers had declined to make overtures to bring about peace. The only exceptions to the strike order were several independent firms and one large concern which has an agreement with the union providing for arbitration.

The strike was begun yesterday, when about 4,000 men were called out. Leaders of the Amalgamated Clothing Workers of America had hoped that the manufacturers would attempt to arrange a settlement of the strike, but when no proposal was forthcoming, the union officials decided to call out the workers.

LAW PASSED PROPERLY? SOLONS WOULD KNOW

Columbus, Sept. 28.—Whether the Barnes-Moore civil service law was passed properly by both branches of the Ohio legislature was a question before the supreme court today when argument was heard in the suit of discharged civil service employees to test the validity of the law. The definite question on which argument was made is that of affording the court of appeals to certify its record to the supreme court. The two lower courts already had passed on the case in a perfunctory manner to hasten its progress to the high tribunal.

Former Attorney General T. S. Hogan who brought the suit in behalf of the civil service employees either discharged or bled to dismissal under the new law, argued that inasmuch as the copy of the law passed by the senate omitted several words, evidently by clerical error, and was signed by the governor and filed with the secretary of state in this form, it is invalid.

Attorney General Turner, in defense of the law, argues that it is valid as it stands. The suit is in the form of an injunction to prevent the state civil service commission from enforcing the new law.

The hopes of position and salary of many Democratic civil service employees in state, county and municipal service are dependent on the outcome of the case. The supreme court also was to hear oral arguments today on the suit filed yesterday by A. Julius Freiburg, counsel for the National Wine and Spirits Association, the mandamus, Secretary of State Hildebrandt to distribute arguments against, as well as for, the prohibition amendment. Attorney General Turner opposed the mandamus in defense of his opinion given last week that the

The Fashion Our Competitors Say We Are "LUCKY"

But we say we are successful because we know our business, we have followed one idea—one scheme—one rule—namely, to secure the best—the very best—for the money. Each and every garment attests that fact, conclusively.

We look upon our effort with pride—our results with satisfaction. We exult in the fact that some of the best judges of style endorse our high opinion of our line.

To prove the above statement by "test" and not merely by claim, we are going to give a "Living Model" exhibition on Friday, October 1st, 7 to 10 p. m., to give you the correct, proportional and real impression of the style and features of the garment which only a Live Model can bring out. MORE SUITS FILED IN AMENDMENTS FIGHT

Columbus, Sept. 28.—Opponents of the so-called "constitutional stability amendment" today joined forces with liberal interests who are fighting the prohibition amendment, in seeking to get the supreme court to mandamus Secretary of State Hildebrandt to mail out arguments against both these amendments. Mayor Newton D. Baker of Cleveland, appeared as principal champion of the forces fighting the amendment to forbid the submission of a constitutional question to referendum more than once in six years. He filed a separate mandamus suit against the secretary of state, similar to that entered yesterday by A. Julius Freiburg, of Cincinnati representing liberal interests and together with Mr. Freiburg argued the case before the court. The liberal suit seeks only to have the arguments

that he had refused formally to mail out these negative arguments on both amendments.

ARRESTED, ATTEMPTS TO SHOOT SHERIFF

Newark, O., Sept. 28.—Abbie E. Bishop Says Catholic Church Is Not In Politics; Praises Wilson For Course In Crisis

Refuting the claim that the Roman Catholic church is in politics, Rt. Rev. James J. Hartley, Bishop of Columbus, spoke very pointedly on that subject, during the course of his sermon at Holy Redeemer church, Monday evening.

The Bishop speaking to the men on the duties and obligations they owe to their families—as well as their duties to the state—told them that the Catholic church is not in politics and that they could use their own judgment and vote just as they pleased. The church, he said, teaches the doctrine of faith and morals and not the politics of political parties.

The Bishop denounced the use of the name Catholic in connection with any political movement. He said the church asks her sons and daughters to obey the laws of the land and state and be good citizens and does not seek to influence anyone's vote. He said some people were eternally confounding the idea of temperance and prohibition which he said were radically different.

It was in referring to the Catholic Prohibition League of Ohio that Bishop Hartley made use of the language regarding the prohibition and what he termed the covetous use of the name Catholic.

The Bishop also took the opportunity for lauding President Woodrow Wilson for the way he has guided the destinies of the nation during the critical times incident to the world's war, styling him a typical American citizen who would not lend his endorsement to any present day fanatics who occasionally sweep over the country and called on all to stand by him during the present crisis.

Demurrer In Dynamite Case Sustained By Judge Thomas

Judge Thomas reversed his decision of Monday in the dynamite case Tuesday afternoon, sustaining the demurrer of Attorneys Sheppard and Cropper to the indictments charging Albert Marshall with murder in the first degree. The court after further deliberation, decided that the indictments did not allege sufficient intent on the part of the accused to warrant a first degree murder charge.

Prosecuting Attorney Micklethwait announced Tuesday afternoon after hearing of the court's decision that he would appeal the point at issue to the court of appeals. He maintains that the indictments contain sufficient allegations to support the charges.

In the meantime an affidavit charging Marshall with murder will have to be filed in a justice's court in order to hold him in the county jail, according to the prosecuting attorney.

The case was re-opened Tuesday morning by Attorneys Sheppard and Crawford, who cited authorities to support their demurrer. Judge Thomas took the case under advisement until Tuesday afternoon, when he announced his decision in favor of the defense.

The question at issue was whether the indictments stated sufficiently that the dynamite was placed under the floor of the frame shack with intent to kill the persons named in the indictments.

It is not lack of pleasant thoughts that worries the self-conscious, but the fear of giving expression to them. You must try to make yourself companionable to others.

Machine Leaves Road, Turns Over, Fred Hogan Is Injured

A touring car containing five men from Portsmouth, who had been to a camp several miles north of Lucasville, skidded and ran off the pike near the Miller farm above Clifford about one o'clock Tuesday afternoon.

The machine turned over and Fred Hogan of 912 Twelfth street, received bruises. A front wheel and right fender were broken and bent. The other members of the party escaped injury and came to the city in another machine. The damaged car was left at the Egbert garage in Lucasville for repairs. The party was composed of steelworkers.

Miss Dolly Wise

She is here to answer any and all questions concerning love, matrimony, troubles, woes, etiquette, etc. Inquiries should be addressed to Miss Dolly Wise, care The Daily Times, Portsmouth, O. Office Phone 62.

Xenia, O.—Dear Dolly Wise.—Could you tell me where I could get a speech and dialogue book, the name of it is "The Ideal Speaker" for home, schools and churches, and oblige.

Ask the proprietor of any book store in your city to order the book for you if he has not one in stock.

Dear Dolly.—I am a young girl of sixteen. Would like to find some one of my new acquaintance as companion. Please let me know how to have the pleasure of seeing them.

LITTLE STRANGER.
The only way to see young people is to go often as possible, to meetings, church socials, entertainments and nice gatherings. Don't neglect these worthy opportunities, and you will make plenty of desirable young people's friendship.

Miss Dolly Wise.—Will you kindly print directions for cleaning silk, which will not only clean the silk, but retain the original freshness and crispness of the silk. I have several good ribbons, both taffeta and mouseline, also a light plaid taffeta waist, the sleeves of which I wish to use for trimming, but all are badly soiled. Thank you.

PRACTICAL.
Gasoline is the best thing I know of for cleaning silk. However the ribbons might be washed in a soda made of luke warm water and ivory soap. Iron while wet between cloths or newspapers.

Corn muffins with a "way-down-south" taste!

Here's how: One egg—well beaten, 1/2 cup sugar, 1 cup corn meal, 1 cup "Presto" Self-Raising Flour, 1 cup sweet milk, 2 tablespoonfuls butter.

"Presto" is ready to use, all measured and mixed. Famous recipes in and on every package.

TIMES SERVICE PATTERN 1403

Orders for patterns are forwarded to New York to be filled, hence it requires several days for the pattern to reach the purchaser. Patterns cannot be ordered by telephone. Do not use postage stamps for larger denomination than two cents.

CAUTION.—Order adult patterns by number of pattern, giving bust measure for waist patterns, and waist measure for skirt patterns. For Misses and Children give number of pattern and age only.

COUPON
This pattern will be sent on receipt of 10 cents. Make number, name, address, etc., plain. Send to Pattern Department Portsmouth Daily Times, Portsmouth, Ohio.

No. 1403 Size.....Age (for child).....

Dear Miss Wise.—I am going to ask you an odd question which I hope you can answer satisfactorily. I have a new car and I want to take a bunch of girl friends out for a spin. Now should I ask one of them to sit in the front seat with me or just let them pile in any old way.

OH YOU KID.
The place of honor is in the front seat with you—that is if you are going to drive the car yourself, so place the girl you particularly want to compliment, next to you.

Dear Miss Wise.—I am troubled with granulated eyelids, and am hoping you can advise me what to do towards getting rid of the same?

A SUBSCRIBER.
I do not presume to prescribe medicine for any bodily infirmity. Least of all, would I meddle with that exquisitely delicate organ, the eye. I do, however, give general directions for the care of the eyes and caution against the abuse of them, and for the preservation of the sight. When the eyes ache from strain of any kind, bathe them often and freely in pure water as hot as can be borne comfortably. If they smart and the lids are inflamed, add a pinch of boracic acid powder to a cup of hot water and bathe them with this several times during the day—more abundantly at night and upon rising in the morning. You may substitute liquid diluted boracic acid for the powder. It is harmless and healing.

Dear Dolly.—What can I do to prevent a waist from running when I wash it. The waist is pink.

LUCY.
When washing and rinsing colored materials add a tablespoonful of Epsom salts to each gallon of water, and even the most delicate shades will neither fade nor run. Serge and similar materials, which have been dyed black, can be safely washed in this way without any risk of the dye running.

Dear Dolly.—Please tell me how to clean jet passementerie. It is spotted with ice cream.

MRS. M. D.
Clean with a cloth dipped in equal parts of grain alcohol and water, drying at once with soft linen. Jet jewelry may be cleaned in the same way.

Dear Miss Wise.—Please tell me what to do to win the love and esteem of a real nice boy. I am 15 years old. Should I be nice and kind to him and show him that I care for him or what?

BLUE EYES.
Be kind to every one and everything so that you will be worthy of the good friendships that come your way. Do not try to win a boy's friendship. Little girls waste too much time doing this sort of thing. You can put in your time better. Do the best you know how always and the friendships will come to you.

Dear Miss Wise.—Is there a book published which tells all about the proper care of infants? Would you send name and tell me how much it costs? Please answer this as soon as you can.

YOUNG MOTHER.
Dr. Holt's book, "The Care and Feeding of Children," is a very good one. There are many other excellent publications on the same subject sold at the various book stores. The clerks will give you the prices of each.

Dear Miss Wise.—Can you print a recipe for pimiento fritters in your column?

HILLTOP LADY.
Drain canned pimientos as possible. In each press a little piece of cheese, and dredge with flour that has been seasoned with salt and pepper. Then cook in hot butter, on both sides, until the cheese begins to melt. Serve on pieces of hot buttered toast.

Number 16.—For the society editor call 543. If that line is busy call 43, 44, 59 or 60 on the home phone. Bell 33 or 34. If you care to you can write the party up yourself and mail it to this office or send it by messenger.

Miss Ellen Rogers will leave Mineral Springs next week for a visit with friends in Hillsboro.

Mr. and Mrs. William J. Graf, who have been guests at the home of Mr. and Mrs. Charles Hauck, left Sunday for their home in Hyde Park, Cincinnati.

Mrs. Irving Drew has a beautiful plant called Latona, which is now in full bloom, and invites any lovers of choice flowers to call at her home to see this beautiful flower, which has sixty-five blossoms. The plant is an unusual one and well worth seeing. The blossoms come out in the evening, opening about four o'clock. It was a gift to Mrs. Drew from Mrs. Charles Warwick, of Lucasville, she having procured it in Virginia several years ago, and this is the first time it has shown any blossoms, which are most beautiful in pure white. All flower lovers are invited to see it.

Miss Lollie Anderson, organist, and Miss Ella Berry, vocalist, presided for the last time in the First Presbyterian church choir, Sunday, before their departure on a concert tour with the Ella Berry Concert Company under the direction of the Central Lyceum Bureau. Miss Anderson gave an organ recital Sunday evening previous to the sermon as a farewell. In appreciation of their splendid work in the choir, Miss Anderson was presented with an ivory clothes and hat brush, which will be useful on her tour, and to Miss Berry they gave a medicine case. The presentation was made by Mr. W. H. Schwartz. Miss Anderson's place as organist will be filled by Miss Edna Wilhelm, and Miss Norma Hark Young will take Miss Berry's place as vocalist. The quartette choir will consist of Mrs. Young, Mrs. Charles Storck, Mr. W. T. Schwartz and Mr. Boyd. In addition to this the church is planning for a chorus of male voices to sing every Sunday evening.

Mrs. Oase and son and Mrs. William Burkins, of Columbus, will be guests of Postmaster George Ross and wife, of Sciotoville, during the Korn Carnival week.

Miss Mae Henderson, of Ninth street, left Sunday morning for St. Louis, Mo., where she will enter the Morris School of Elocution and Dramatic Arts for a special course in these branches. Miss Henderson is a reader and teacher of elocution with recognized ability, having studied under the foremost teachers of the state, and her many friends in this city, appreciating her exceptional ability, are confident of her success. She was accompanied to St. Louis by her aunt, Mrs. Frank Vigna, and upon her return will reopen her studio to a large class. Mrs. Vigna will return the latter part of this week.

Mr. and Mrs. Charles Hauck, Miss Edna Hauck, Mr. Carl Hauck and their guests, Mr. and Mrs. William Graf, of Cincinnati, and Mr. Fred Hoesch motored to Mineral Springs for dinner Sunday.

SOAP IS BAD FOR THE HAIR

Soap should be used very sparingly, if at all, if you want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is just ordinary mulford coconut oil (which is pure and greaseless), is cheaper and better than soap or anything else you can use.

One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair drips quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

You can get mulford coconut oil at any pharmacy, and a few dimes will supply every member of the family for months.

PENDULUM SLOWLY SWINGING TOWARDS MOTORIZATION

Looks Like Council Will Motorize All City Fire Companies

The city council at a caucus meeting Monday night practically decided against motorizing the city fire companies on the piecemeal order instead developing a strong sentiment favoring the motorizing of the whole department.

While the various members expressed themselves as disliking another bond issue it was agreed that one must come sooner or later for the upkeep of the companies and that it would be less expensive in the long run to invest the money in motor apparatus.

It was pointed out by Chairman Charles W. Wilson, of the fire committee, that the interest on \$30,000 bonds, the amount required for the motorizing of the companies will be more than paid by the elimination of the big horse feed and shoeing bills. The feed bill for alone last year amounted to over \$1800 and the shoeing between \$300 and \$400. Four or five new horses will have to be purchased for the department unless motorized and was shown that at least one new team is needed annually.

Upkeep of Big Auto Was \$58

The total expenses of the upkeep of the auto engine at the Gallia street house last year was only \$58, and it made every run of the company. In Cincinnati, Cleveland, Columbus and other cities the ladder equipment which makes all runs cost less than \$2 per month to operate them. Mr. Wilson also called attention to the fact that the present companies are undermanned and that, unless motorized, at least two additional men will have to be put into service. During the noon hour on three days of the week there are only five men at the Seventh street engine house to hitch six horses in case of an alarm. Such a condition has existed for some time, and was mainly responsible for the disastrous results of the Portsmouth Gas Company's office fire almost two years ago.

City Has Outgrown Fire Equipment

The city had grown remarkably in the past ten years but its fire department has not proportionately kept pace with it. It was contended by Mr. Wilson that two-thirds of the expense of motorizing the department should be centered in the Seventh street company because of its close proximity to the business district. He figured that it would cost \$10,000 to motorize this company and \$6,000 to motorize the hill top company.

Want All Members Of Council Present

It was mutually agreed that best results could be obtained with the entire membership of council present and in this the council fire and police committee of which Mr. Wilson is chairman, concurred, the committee leaving it to the attorneys to get together at some future date and agree upon a time for the next meeting.

After All Others Had Taken Leave

The councilmen discussed the "jitney" ordinance informally. A Lima newspaper was read telling of a similar campaign for jitney regulation in that city and indicating that it is no further advanced than Portsmouth in that regard, preliminary meetings having accomplished but little.

License there will probably be less than \$25, some Lima councilmen believing that figure rather high, while the proposed license fee for Portsmouth is \$40. Several of the councilmen expressed themselves as strongly opposed to having the license fee that high and said this together with other radical provisions made the whole campaign appear as not one of "jitney" regulation but "jitney" extermination. It was argued that once the jitneys are regulated and licensed, hackmen might have to be licensed

placed a tractor under the hill top steamer.

Council Swinging To Motorization

While no definite action was outlined it was plain to be seen that the councilmen are gradually rounding to the opinion that complete motorization is the better plan and early and favorable action along that line is now to be expected.

The absence of Messrs. Guler and Shump, who were busy participating in the Knights of Pythias festivities, caused a postponement of the hearing on the "jitney" regulation ordinance.

Street car men and "jitney" owners were both on hand with good sized delegations and their legal counsel, Judge A. Z. Blair, fairly loaded down with documents and data with which to present the "jitney" side of the controversy and Judge Noah J. Dever ready to look after the interests of the car men, while Judge John C. Miner was present to represent the street railway company.

Equipment favored by the fire committee for the Seventh street company is a latest improved 85 ft. aerial ladder truck with water pipe attachment that can be hoisted in a second or two time, placed at any kind of angle to throw a stream of water into upper floors and operated from the ground; also a combination hose and chemical wagon with pump attachment and a tractor motor under the present steamer.

Two propositions are entertained for the hill top house, firstly a combination hose and chemical wagon and motor under the present steamer or a combination hose and chemical wagon with pump attachment, the first combination wagon with a capacity of 150 gallons per minute and the latter one with a capacity of 340 gallons. The latter one alone would, it is believed, answer all future needs of the hill top district. Mr. Wilson expressed himself as opposed to

An Easy Way to Increase Weight

Good Advice For Thin Folks

The trouble with most thin folks who wish to gain weight is that they insist on drugging their stomach or stuffing it with greasy foods; rubbing on useless "flesh creams", or following some foolish physical culture stunt, while the real cause of thinness goes untouched. You cannot get fat until your digestive tract assimilates the food you eat.

There is a preparation known to reliable druggists almost everywhere which seemingly embodies the missing elements needed by the digestive organs to help them convert food into rich, fat laden blood. This modern treatment is called Sargol and has been termed the greatest of flesh-builders. Sargol aims through regenerative, re-constructive powers to coax the stomach and intestines to literally soak up the fattening elements of your food and pass them into the blood, where they are carried to the starved, broken-down cells and tissues of your body. You can readily picture what result this amazing transformation should produce as with increased weight the cheeks fill out, hollows about neck, shoulders and just disappear and from 10 to 20 pounds of solid, healthy flesh is added to the body. Sargol is absolutely harmless, inexpensive, efficient. Fisher, Streich and other leading druggists of this vicinity have it and will refund your money if you are not satisfied, as per the guarantee found in every package.

NOTE—Sargol is recommended only as a flesh builder and while excellent results in cases of nervous indigestion, etc., have been reported care should be taken about using it unless a gain of weight is desired.

next or the cry of class discrimination would be raised. The members evidently mean to deliberate carefully in the "jitney" matter and hope to strike a happy medium that will be satisfactory to both sides and properly protect the public at large.

The principal speaker of the evening was of course Grand Chancellor William Schuchardt. He is an orator of considerable ability and a note of true Pythianism rang through his talk, which was greeted by much applause.

He urged all the lodges present to assist in the movement to have the K. of P. membership mark (which the 90,000 by January 1) He stated that there were at present over 700 K. of P. lodges in Ohio. He also stated that the magnificent new K. of P. Home for the Aged would be dedicated in Springfield on October 3 and the event will be attended by Pythians all over Ohio.

Mr. Schuchardt was followed by Dr. E. W. Tidd of Stockdale, who is famed for his hustling qualities when it comes to clearing up K. of P. matters. Dr. Tidd gave an interesting and appropriate talk and as he sat down he was greeted by much applause. He was followed by County Superintendent E. O. McCowen and the Rev. L. J. Hopper, who can always be relied upon to say something of interest.

After the River City band had rendered a number of stirring selections it was announced that the banquet was on and more than 400 Pythians sat down to the feast of good things so admirably served by Adam Pfau. Everybody present had a royal good time and last night's big meeting will not soon be forgotten.

The committee on arrangements included Edward Brehmer as chairman, Ralph Johnston, George Swabby, George Tener, A. S. Patton, Arthur Flowers, Ed Yeager, John Stewart and Wiley Miller, it being a joint committee from Magnolia and Massie.

Dee York Has Leg Fractured

Dee York, son of Raymond D. York and Paul Swavel crashed, the rib, the main bone in the leg, was fractured.

The injury was the first serious one to be recorded since football practice was started three weeks ago. York was in the backfield last year and was counted on as the team's regular quarter-back for this season.

Gallant Knights Held County Meeting Here, Monday Night

From every angle was the county meeting of the Knights of Pythias held Monday night in Pythian hall, Third and Chillicothe streets, a complete success.

The attendance was the largest in the history of Magnolia and Massie lodges, which arranged the affair, the program was short but full of interest and the banquet served by Caterer Adam Pfau, to more than 400 gallant Knights was in keeping with his reputation in this line.

The meeting had not progressed very far until it developed into a veritable love feast and true Pythianism permeated the rousing big meeting last night at which the K. of P. lodges of Wheelersburg, Sciotoville, South Webster, Otway, Stockdale and Harrisonville were represented by splendid delegations.

Before the meeting started a parade was given from the Washington hotel to Fifth and Chillicothe streets and thence back to the hall. It was arranged complimentary to Grand Chancellor William C. Schuchardt of Cincinnati, the chief speaker of the evening, and Grand Inner Guard Dr. E. W. Tidd of Stockdale. It was headed by the River City band the parade was witnessed by large crowds all along the line of march. More than 400 Pythians were in the pagant.

County Deputy Edward Brehmer had charge of the meeting and he acted as toastmaster. He is perfectly at home in a position of this character and kept everything moving along in splendid style.

Their contract calls for the completion of their work on October 15 and the firm is now giving the bridge its finishing touches.

WANTS WATER TESTED FOR TYPHOID GERMS

The following was made public at the city executive's office, Tuesday morning:

Dr. W. W. Smith, Health Officer, City.

My Dear Mr. Smith:

In this city there are few cases of typhoid fever that I advise should be traced to their source of origin.

I notice quite a number of citizens at the spring on Kinney's Lane who carry away various quantities of water presumably for drinking purposes. It is not my purpose to infer that this water in any way contributes to the causes referred to, but it is my belief that since there are quite a number of installations in the zone from which this spring is fed that this water should be subjected to an anaerobic test and the real conditions of the water placed before the public.

I now advise that you secure a thoroughly clean bottle and send a sample of this water as it flows from the spring to the State Board of Health, Columbus, Ohio, for a complete test and that the results be made known at the earliest time possible.

As well should the cisterns in parks and other public places if there be any such inspected and the water analyzed in the interest of preserving the health of the community.

Respectfully submitted, ADAM FRICK, Mayor.

Sept. 28, 1915.

Owls Plan For Open House During K. K.

Open house will be held by the Order of Owls in Seels hall on Second street after the fraternal parade on Thursday evening of the Korn Carnival. It was announced after the meeting of the order Monday evening. Jackson Nest has been invited and the members will be the guests of honor. A gold Owls' watch chain will be awarded to the lucky winner at that time.

The members will meet at Seel's hall before the parade to form in line. In this connection, it was announced, that an effort will be made to lease Seel's hall as a permanent lodge home.

Fancy costumes have been ordered for the parade, and it is hoped to have from 100 to 150 members in line.

Word was received by the Nest that William Miller, the secretary, was improving at Christ hospital, Cincinnati, where he has been a patient for several weeks.

There is more Catarrh in this section of the country than any other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly falling to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally, acts directly on the blood and mucous surfaces of the system. They offer the hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Evers Says Alexander Will Win It

ALEXANDER will beat the Red Sox in the world's series. This statement, coming from Johnny Evers, captain of the Boston Braves, sums up just what the 1914 world champions, and every other team in the National league, think of the Quakers' chances in the battle for the big title.

"Alex wants to pitch four

games. He told me less than two weeks ago that he would ask Moran to start him in the first game, and then come back in the second. Last winter, when the all-star teams made that trip to Honolulu, Alex pitched and won three games in four days, two by shutouts, and the American league team was a pretty nifty combination at that."

"Moran's club plays 50 per cent better ball behind Alexander than it does behind the other pitchers, although the boys have a lot of confidence in Chalmers, who I think will work in at least one of the games."

The Braves, although six and a half games behind the Phillies, have a chance. Moran's boys must lose seven of the next nine games while we'll have to come through with a straight run of victories to top, still, the boys are out there fighting, and they haven't given up all hope.

"And here's another thing you must look at in the world's series. Alexander will stop Speaker and Hooper, of that I am sure. And with that pair stopped, where will the Red Sox get their hitting strength, for, without Hooper getting on, and Speaker following with a drive, Carrigan's men are baffled right there."

Evers can't see anything but Alexander, although he says that the series will be a close one. "Alex is, in my opinion, the greatest pitcher in the game, and I've batted against Maltby, Rucker, Wood, Johnson and the rest," declared the Trojan. "Johnson is the nearest approach to Alex, and he lacks one feature which makes Alex a star. If you crowd the plate too close on Alex, he'll buzz one by your chin, and you'll have to back up. I really believe that he can run any batter in the league if he wants to in a pinch, for he'll shoot one past your nose at a mile a minute clip that'll either set you flat on the ground, or will make you miss a mile."

"Anyway, I'll be there, watching them play, but I think it's a good bet that the Phillies will cop."

Boston Preparing For The Big Noise

Boston, Sept. 28.—Although this was an open day in major league schedules for Boston teams, the day was an active one in baseball circles.

The Red Sox virtually certain pennant winners in the American League, were busy in preparation for the world's series in which they expect to meet the Philadelphia Nationals.

As the local games will be played on Braves' field where the Red Sox are strangers, Manager Carrigan ordered his players out to test his lights and shadows, said to be unusually trying because of the great sweep of stands, to study the bound of balls from the new

laid paths and turf and to judge the flights of balls with respect to the great distances of the most extensive playing field in the country.

On the same field the world's champion Braves kept in trim for the coming of the Philadelphia Nationals for a two game series. Captain Evers said his team still had hopes of pulling the National League leaders down to a point within reach of another Brave success.

An augmented staff of clerks in the office of the Boston Americans worked steadily at the growing pile of applications for world series tickets.

Spiders Claiming City Championship

The Spiders by defeating the Appers Sunday at St. Louis, claim the amateur championship of the city and county. This team has been beaten only five times this season. The Spiders' big inning was the fourth, when a three-base hit, two two-base hits, a single and a fielder's choice netted four runs.

PHILLIES AND RED SOX ARE PICKED AS PENNANT WINNERS

Pat Moran (left) and Bill Carrigan.

As the 1915 baseball season draws to an end it's beginning to look more every day as if Pat Moran's larping Phillies and Bill Carrigan's red hose warriors will be the contending teams in the baseball classic which will have its annual setting the early part of next month. Only a miracle could defeat either team.

A. A. TO RETRENCH

Chicago, Sept. 28.—Club owners of the American Association met here today to plan for the 1916 season.

The question of the players' limit and the make-up of the circuit were the principal subjects up for consideration. There will be at least one change in the league next season. It was reported, Cleveland, according to some of the club owners, will be dropped and the club placed in Toledo.

for and that the player limit will be sixteen, the same as during the last season, was the opinion expressed. The players, it was said, probably will be offered a five months' contract next season.

May Ditch Gilmore

St. Louis, Mo., Sept. 28.—There is a strongly defined rumor here that President James Gilmore of the Federal league is to be deposed as head of the organization and another man who has been very prominent in baseball, elected to the position.

Presidents Ward and Sinclair of the Brooklyn and Newark Federal League clubs, respectively, are mentioned as leading the opposition to Gilmore.

SAYS THE FEDS ARE PLAYING MORE GAMES THAN ARE BOOKED

St. Louis, Mo., Sept. 28.—J. G. Taylor Spink, publisher of the Sporting News, the official organ of organized baseball, has had men at work checking up the games played by the Federal League teams as contrasted with those scheduled, and announced today that, although the league season has ten more days to run, one more game than the number scheduled have been played.

According to Spink, if these extra games were thrown out Chicago would be leading the league by one half a game. He says that the Federals have played double-headers where the schedule called for but one game and this was done to offer a counter attraction to organized baseball. He cites as an instance that St. Louis has played twenty-three games with Pittsburgh and the same number with Newark, where the schedule calls for twenty.

Buckeyes Blanked

The Wallis Station Farmers defeated the Toledo Furman Buckeyes yesterday afternoon in one of the fastest games of the season, the score being 1 to 0. Two men were down in the ninth with Bolander on third. R. Haussen singled to right, Bolander scoring and ending a well earned victory. Buller, Buckeyes, Wade and Wade, W. S. F., Bolander and Haussen. Bolander has lost but one game out of eighteen this season.

SPORT SALAD

There is talk of another bond between McFarland and Gibbons, which will be largely attended by McFarland and Gibbons.

Dartmouth is tampering with a Minnesota star. Dartmouth is the Federal League of the gridiron.

Chief Bender's suing the Terrapins for releasing him. He has a queer way of expressing gratitude!

Barney Dreifuss bought Fred Clarke for \$100. The Dutch bought Manhattan Isle for \$25.

Brooklyn has postponed letting contracts for extra world's series pitchers until next year.

RACES ON AT LOUISVILLE

Louisville, Sept. 28.—With 34 nominations to the event, including some of the best distance horses on the American turf, probably the largest field in the history of the Louisville cup will go to the post at Boulogne park here today. The race is for three year olds and upward at two miles and is the feature race of the fall meeting. It is worth approximately \$5000.

MANY WANT ON ILLINOIS TEAM

Urbana, Ill., Sept. 28.—There are five vacant places in the ranks of the "Big Zippers," Illinois champions, but a horde of ambitious athletes want to fill them, in consequence one of the prettiest struggles for jobs in Illinois annuals is in progress on Illinois field.

Howdy Coming For Carnival

Howdy Galen, who is spending the off season at his home in Zanesville, is coming over for the Kora Carnival. Howdy says his town over pulls off anything like the Carnival and he wants to see what an affair of this kind is like.

Danforth Drafted

Chicago, Sept. 28.—David Danforth, star pitcher of the Louisville American Association club, has been drafted by the Chicago Americans. He was announced today. Danforth holds the American Association record for strike outs, having fanned eighteen batters against Kansas City Sept. 1.

COLLINS GOES TO BOSTON

Pittsburgh, Sept. 28.—President Barney Dreifuss announced today that Edgar Collins, an outfielder, had been released by the Western route by the Pittsburgh National League club to the Boston Braves.

FANS TO WATCH MAYER

The work of Frankie Mayer at the Phillies will be closely watched by local fans when the warriors series is pulled off. Mayer has pitched grand ball this season and is a regular at the bat. Mayer will run close to the wire for pitching honors during the big season.

RED SOX WELL SUPPLIED WITH CATCHERS

Carrigan (left), Cady (top right) and Thomas.

The Boston Red Sox are well stocked with backups for the coming world's series. Carrigan, the catcher and manager of the team, has not been doing very much behind the bat, but can be counted on in a pinch. Cady has been catching about seventy games and has been hitting a little below 300. Thomas has been doing most of the catching and probably will be the mainstay behind the bat for Boston in the big series.

Reds Drop Two Games

Pittsburgh, Sept. 28.—The Reds were knocked in the sixth and seventh innings of the game played at Cincinnati Monday night. The Reds will have to wait until they will finish in the first division of the next period of 24 hours.

Braves Picking Fighting Phils

Members of the Boston Braves must choose themselves out of the National pennant race. They are picking the Phils to beat the Boston Red Sox. Bill Carrigan says that the Phils will win out of six from the Red Sox.

COL. POOR ATTENDANCE AGAIN

Philadelphia, Sept. 28.—There will be no major league baseball games in Philadelphia until next Saturday. The game scheduled between Philadelphia and the Chicago Americans today was played in a double header last Saturday. Those with Washington tomorrow

and Thursday have been transferred to the National capital and Friday's scheduled game with the New York Americans will be played in a double header here on Saturday. Poor attendance is given as the reason for the changes in the schedule.

BIG GAMES START SATURDAY

Several Ohio football eleven's started the annual campaign last Saturday, but the real opening parade comes at the end of the week. Ohio State and Ohio Wesleyan play in Columbus.

Overhill next Saturday will go to Illinois to play Cornell. Wittenberg goes over to Richmond, Ind. to meet Earlham. Cincinnati will open at home with Georgetown, a Kentucky aggregation. Denison's at-home first party will be with the Marshall team of Huntington, W. Va.

At Athens, Ohio will be at home to Ohio Northern. Miami travels to try case. Reagon will invade near-by Westerville for a game with Otterbein. Muskingum and Mt. Union will play at Alliance and Heidelberg, the team that scored Oberlin last Saturday, will appear in Wooster. Reserve will go against Huron.

CLAIMS TO HAVE SEEN MEANS MAKE ESCAPE

Jesse Gardner, a former constable of East Portsmouth, claims to have seen Robert Means making his escape after the shooting of Walter Benson at Sciotoville, Saturday. Gardner says he was standing on top of one of the new bridge piers and plainly saw Means, armed with a shot-gun, making direct for the Kentucky hills. Gardner says it is rumored that he has since visited the scene of the shooting after dark.

Ed Hunter, a former storekeeper of Elliott county, Ky., has purchased the grocery business of his brother-in-law, D. O. Tipton, at No. 2301 Eighth street. Mr. Tipton has left the city. The former's father, J. W. Hunter, purchased the fine brick building in which the grocery is located.

Has Faith In Quick Remedy For Cataract

Wurster Bros. Guarantee That Hyomei
Will Remove the Worst Cases of
Cataract in Portsmouth

When one of the most reputable concerns in Portsmouth guarantees that a medicine will produce benefit or they will refund the money, it speaks volumes for the merits of that remedy. It is in this way that Wurster Bros. are selling Hyomei, the treatment that has helped so many cases of both acute and chronic cataract in Portsmouth and vicinity.

Hyomei is not a pill nor is it a spray or a lotion that must be rubbed in. It is an oil, the air of which you breathe in your nose, throat and lungs by the aid of an inhaler that comes with every outfit. Benefit will usually be seen from the very first treatment. This air destroys all germ life in the sinuses and lungs and cleanses and purifies the blood with the additional effect of supplying it with the essential elements of health. It banishes cataract of the head and throat and respiratory organs. Wherever these organs are diseased, Hyomei will do its work of healing. When using this treatment, the air you breathe will be found like that on the mountains high above the sea level, where grows the balsam tree and plants, which make the air pure by giving off volatile antiseptic fragrance that is healing to the respiratory organs.

The complete Hyomei outfit is inexpensive. It includes an inhaler, dropper and sufficient Hyomei for several weeks' treatment.

Remember that if Hyomei does not relieve you Wurster Bros. will refund your money. This is a good time to get rid of cataract by this natural method and prevent cataract cures that are so common at this season.

**True Secret of Keeping
Youthful Looking**

(The Beauty Seeker.)

"The real secret of keeping young-looking and beautiful," says a well-known hygienist, "is to keep the liver and bowels normally active. Without these organs, poisonous waste products accumulate in the system, polluting the blood and lodging in various organs, causing disease. This becomes manifest, when, nervousness, indigestion, constipation, wrinkles and sagging of face, and other signs of old age, appear. These are the result of a sluggish liver and bowels. Without producing evil after-effects, has been the problem. For instance, the use of cathartics, which are so common, will not only fail to produce the desired result, but will also injure the system. The only safe and reliable remedy, which may now be had in convenient tablet form, is the value of the 'Vegetable Compound' derived from the humble fig apple, or its root, which has been called 'vegetable calomel' because of its effectiveness. It is not to be classed with the real calomel of medicinal origin. There is no toxic element in it. It is a natural product of the fig tree, and its use is not followed by weakness or exhaustion. In the contrary, these humble vegetable tablets tend to impart tone and elasticity to the relaxed intestinal wall. Such a laxative, which may be procured from any drugstore—a 'fig' tablet will do—will prove a revelation to any constipated, liver-troubled person."

**Chief Cause of Pimples,
Blotches, Sallow Skin**

(Messenger of Health.)

Unpleasant eruptions, pimples, blotches, yellow or muddy skin, usually due to a sluggish liver, a constipated bowels and a polluted blood. As a consequence, now foolish in such cases to reach to outward applications, which can never have a lasting, permanent result. If more people only knew it, there would be a very ready remedy, and it is as harmless and quick acting. It is an old remedy, long recognized by the medical profession, which has been put in tablet form, and at such small cost no one need ever be deprived of its wonderful benefits.

"Sensational tablets"—that's the name—have been advertised. There is an habit-forming ingredient. You need only get about a dime's worth, and swallow one at bedtime to realize there's nothing else quite so good for the purpose. The action in the morning is so easy, so soothing, and so refreshing, that you will feel that you are truly refreshed and invigorated. Sensational tablets are not only the finest remedy known for constipation and torpid liver, but after the easiest, most natural and most complete relief of the character mentioned.

**Great Demand for New
Constipation Remedy**

They say that the advent of the "Sensational Tablets" as a vegetable substitute for calomel has resulted in an extraordinary demand for this remarkable product. It seems to have made a hit, particularly with a middle-aged and older class of people, who were quick to recognize its advantages over calomel and the usual laxatives.

Sensational tablets, aside from their usual benefits, have the effect of inducing a tendency to realize there's nothing else quite so good for the purpose. The action in the morning is so easy, so soothing, and so refreshing, that you will feel that you are truly refreshed and invigorated. Sensational tablets are not only the finest remedy known for constipation and torpid liver, but after the easiest, most natural and most complete relief of the character mentioned.

School Board Will Be Asked To Make Addition To High School

Because of overcrowded conditions at the magnificent new High school building, it is imperative that more floor space be provided for Supt. Appel to care for the increased enrollment, and Supt. Appel will go before the school board at its next meeting and urge the necessity of adding another wing to the building.

"Peggy" Davis Victim Of Mysterious Cutting Affray

Fred "Peggy" Davis, a one-legged negro, was the victim of a mysterious cutting affray that occurred in the rear yard of the Davis family home near Twelfth and Railroad streets, shortly after 11 o'clock, Monday night.

Davis was attacked in the dark and although he could distinguish the outlines of the knife user sufficiently to give a fair description of him, he did not know him. The police searched for Jack Haynes, aged 30 years, a strange negro, who they believe did the cutting but were unable to find him and he is thought to have escaped on an N. & W. freight train. Haynes is said to be a gambler who usually frequents the city on N. & W. pay days. He had been rooming at "Deeno" Spalding's home and roomers dropped by persons there when the officers first reached the house, strengthened suspicions that it was Haynes who had slashed Davis. The wounded negro was rushed to Dr. E. W. Hubert's office on Findlay street. Just after the colored physician had started sewing up his wounds, City Physician Dr. W. D. Schaefer arrived and the patient was turned over to him. Davis had a cut four inches long on the left side of the head but the wound that was causing him the most trouble was a cut over the right eye, that severed the temple artery and caused him to almost bleed to death before medical aid reached him. The city service wagon removed him to Hempstead hospital where he was reported up and around Tuesday morning.

Recipes Of Our Pioneer Mothers

for the home treatment of disease were wonderfully dependable. True, they knew nothing of drugs, but owed their success to the roots, herbs and barks of the field. It is interesting to note that Lydia E. Pinkham's Vegetable Compound, the most successful remedy for female ailments we have, was originally prepared for home use from one of these recipes. Its fame has now spread from shore to shore, and thousands of American women now well and strong claim they owe their health and happiness to Lydia E. Pinkham's Vegetable Compound.

"This can be done without marring the symmetry or architectural beauty of the building," Supt. Appel stated today, and "I believe the board will take favorable action on the matter."

"The addition can be built on the northeast of the building, which was so arranged that a wing could be tacked on it at any time," Supt. Appel stated.

The addition would fill out the quadrangle to the northeast and would provide for the additional floor space that is badly needed. The High School enrollment at present is 550 and in February 80 more students will be admitted, which will put the enrollment past the 600 mark.

ALL DETAILS COMPLETE FOR BIG KORN KARNIVAL

Everything Moving Along Without Hitch; Children's Parade Is To Be A "Hummer"

Gratifying reports were submitted by the chairman of the various committees in charge of the Korn Karnival at what was probably the last big meeting of the directors and chairmen Monday evening at the offices of the Business Men's Association in the Masonic Temple.

Every feature of the Karnival, down to the smallest detail, has been thoroughly attended to, by

MANUFACTURERS ON SECOND STREET

It was definitely decided Monday evening that the manufacturers' exhibit would be located on Second street, between Washington and Chillicothe, with a few exhibits east of Chillicothe on Second street. Practically every manufacturing concern in the city will have an exhibit.

The three shoe factories will have still exhibits this year, instead of the manufacturing exhibits of last year. The finished product of their factories and souvenirs and curios will compose the exhibit. The Selby Company has samples of the different boots

the committee in charge, and the remaining days until the Karnival will be devoted to perfecting the plans already outlined.

Every one present at the meeting was confident that the Karnival this year would far outstrip the Karnivals of former years, and that the crowds during the four days would exceed the largest previous crowds in the history of the city.

worn by the soldiers of Europe which are involved in war, which will be an interesting feature. They will have the same space as last year, in front of the Second street school building. It has been decided not to show the motion pictures illustrating the manufacture of shoes.

Next to the shoe factories' exhibit will be the exhibits of the Vulcan Last Company, the Mitchell Manufacturing Company, and the T. M. Patterson Box Co., allied industries of the shoe industry. Exhibits of the other manufacturing concerns will be shown on either side of Second street.

WATCH FOR CHILDREN'S PARADE

An enthusiastic report on the "Children's Parade" for Thursday afternoon was made by Superintendent Appel of the public schools and St. Straus, chairman of the committee who have the matter well in hand. The teachers have taken hold of the movement with a vim that insures success, and many of them are now drilling their pupils for special features of the parade.

According to Mr. Straus, the parade will abound in features, chief of which will be the "Living Flag", to be portrayed by children from the Highland street

school. E. W. Richard is assisting the teachers of that building in putting on that feature.

Children will march by grades, and every precaution will be taken to insure their safety. In addition to the regular police force and Boy Scout brigade, one hundred and fifty business men will act as guards to keep back the crowds. The line of march will be shorter than the other parades on account of the smaller children.

It is estimated that 10,000 children will be in line in the weather is fair. The parochial schools and the rural schools will be well represented.

FRATERNAL PARADE MEETING TONIGHT

Chairman Roy McElhenny reported that the arrangements for the "Fraternal Parade" on Thursday evening would be final. The parade will be held on Thursday evening, and the line of march would be decided upon. Capt. Smith has made his appointment of marshals and aides, and they will receive their final instructions this evening. The Fraternal Parade, which has always been a crowning feature of the Karnival, will be more resplendent than ever this year, as the majority of the organizations will be identified by special costumes, while bands and floats will furnish music for the march.

The Boosters' Parade has exceeded the fondest hopes of the committee, both in size and enthusiasm, reported Chairman Albert Marting, whose committee has completed all arrangements. This year, the opening parade of the Karnival, on Wednesday evening, will be fully twenty

FARMERS WILL HAVE BIG PARADE

It was reported that the "Farmers' Parade" on Thursday morning was being carefully planned by Otto Zoellner, the chairman, who was unable to be present at the meeting.

Chairman Ben G. Harris reported that the preliminary arrangements for the "Choral Contest" were moving satisfactorily. The children are being drilled daily by competent instructors, and will render a good account of themselves on Friday afternoon, it is assured.

Eighty per cent of the tickets for the "Two Mile Dinner" have been disposed of, it was reported.

WILL HAVE SCHOOL EXHIBIT

Chairman Tritschler was also instructed to wire the Second street school building for the school exhibit. The public and parochial schools will have the east side of the building, and the

by Chairman St. Straus. The success of this big opening feature on Wednesday noon is now assured, and some difficulty may be experienced in serving all who want to partake of the delicious spread.

Chairman William Tritschler of the decorating committee, reported that his committee would start out this morning locating the places where the big street streamers would be placed. One hundred streamers will be strung on Chillicothe, Second, Gallia, Sixth and Waller streets, an uninterrupted string from the N. & W. depot to the Washington hotel.

The manufacturers' booths, in the Second street school yard will be built in a "V" shape, leading

Motorcycles And Bicycles To Be In Booster Parade

up to the entrance to the school building. In this way, attention will be directed to the unusually fine school exhibits, which were partially hidden from view last year.

Chairman St. Straus made his final report on the amusements for this year, five big free attractions having been secured, which will be placed on the different streets of the Karnival. Free exhibitions will be given daily.

A plan of the reviewing stand, which will have some architectural beauty about it this year, was submitted to the directors, and approved. Work on the reviewing stand, which will be located at the government square, will be started this week. It will be profusely decorated with bunting, flags and Korn Karnival colors.

That the Booster Parade to be pulled off on Wednesday, October 6, the first night of the Korn Karnival, will be the biggest pageant in the history of Southern Ohio is generally admitted on all sides. But even all that is going to be bigger than originally arranged, thanks to the boosting proclivities of Homer Brunton and Harry McNeer, who appointed Grand Marshals of this division, will bring up the rear, following closely on the "heels" of the automobile section. It will be a distinct addition to the parade and no doubt many beautifully decorated cycles and wheels will be seen along the way. Many of the riders will carry out the decoration scheme and will bedeck themselves accordingly. Just where this division will assemble to the parade, immediately authorized two additional prizes, \$1.00 and \$3.00, will be given for the best decorated motorcycle and a similar amount for the best decorated bicycle.

This division will not interfere in the least with arrangements already made, for Messrs. Brunton and McNeer, who have been appointed Grand Marshals of this division, will bring up the rear, following closely on the "heels" of the automobile section. It will be a distinct addition to the parade and no doubt many beautifully decorated cycles and wheels will be seen along the way. Many of the riders will carry out the decoration scheme and will bedeck themselves accordingly. Just where this division will assemble to the parade, immediately authorized two additional prizes, \$1.00 and \$3.00, will be given for the best decorated motorcycle and a similar amount for the best decorated bicycle.

Bulgaria To Mobilize Only Four Divisions

Paris, Sept. 28.—The Bulgarian cabinet has agreed with Germany, known in Nish and preparations the Rome correspondent of the Petit Parisien says, he has learned from a former Rumanian minister that Bulgaria shall mobilize only four divisions to watch Rumania. This will be done it is said, to avoid action which might justify Greece in feeling she was called upon to intervene under the terms of her treaty of alliance with Serbia.

Meanwhile the Petit Parisien's correspondent asserts, Bulgaria proposed to have 25,000 Macedonian irregulars attack Serbia.

Woman Smacks Officer Over The Head With A Ball Bat

Mrs. Thomas Henderson, the woman who during a former arrest completely wrecked the female ward of the city prison, went on another rampage Monday night.

Going to the saloon conducted by her brother-in-law, William Henderson, the woman stood outside and began a tirade, only to be chased from the scene by Officer Frank Milhaud. She returned shortly after and repeated her act. Milhaud started to take her into custody, but she begged so hard that she was permitted to return home. Once inside her home she began cursing and vilifying the officer and could be heard for squares away. Milhaud entered the home through a rear door, but found some of the rooms darkened, and just as he entered the dining room, Mrs. Henderson struck him a vicious blow on the head with a base ball bat. The officer, though dazed, soon recovered himself, and overpowering the fighting Amazon, placed her under arrest. She was tried in court Tuesday morning for assaulting the officer and fined \$25 and costs.

GERMAN CROWN PRINCE'S RIGHT IS SHATTERED: HE LOSES 100,000 MEN DURING THE SUMMER

FIFTY DIE IN EXPLOSION

Ardmore, Okla., Sept. 28.—With the expectation of unearthing a score or more of bodies rescuers continued searching today the ruins of business houses and public buildings for victims of yesterday's explosion of a tank car of gasoline.

Thirty-six bodies already have been recovered. First estimates of fifty dead and \$500,000 property damage still were unchanged officially, but it was believed that those figures would prove too small when the final story of the disaster was written.

In addition to bodies believed to be still in the ruins it is feared that 200 persons were injured, making a probable death list of three score.

Investigation of the cause of the disaster was started by the city executives today. It is supposed that a spark from a hammer of one of the workmen repairing the car ignited the gasoline.

Eye witnesses said flames shot into the air for a distance of 200 feet immediately preceding the explosion which scattered the flaming liquid for blocks, thus starting scores of fires in the buildings, wrecked by the concussion.

Most of the persons killed were crushed under falling walls, some of them more than a block away from the scene of the explosion.

Ardmore today virtually was under martial law while business was suspended to permit the work of rescue to proceed with greater speed. One hundred special deputies had been sworn in to prevent disorder.

The downtown business section presented a picture of disaster, one block of Main street, from the railroad station to the Whittington hotel, having been razed, by the explosion, many buildings on the opposite side of the street destroyed and the plate glass fronts of nearly every store in town damaged.

The city was in darkness last night, the electric lights having been cut off owing to the danger from prostrate wires. Many instances of heroism and freakish results of the explosion were recounted today by persons who witnessed the explosion and themselves with slight bruises.

Many clocks about the city, stopped at 2:35 o'clock, are curious reminders of the explosion.

The loss in plate glass alone has been estimated at \$50,000.

MORAN TO BE GIVEN "SHOWER"

St. Petersburg, Florida, Sept. 28.—Baseball enthusiasm stimulated to a great extent by the fact that the Philadelphia Nationals train here, has led to preparations for a "post card shower" for Pat Moran, the Phillies manager. Scores of persons dropped cards today into boxes, which have been placed at several points in the business part of town. The boxes will not be opened until October 1, when all the cards will be sent to Moran at one time. Enthusiasts here hope there will be at least 1,000 cards.

DEPOSED, HE RUNS AGAIN

San Francisco, Sept. 28.—Eugene L. Schmitz, who was deposed from the office of mayor as a result of the graft prosecution in 1906-07, went before the voters of San Francisco again at today's primary election as a candidate for head of the city government and was second choice in the betting in a field of eight candidates. Odds of ten to seven were offered that Mayor James Rolph, Jr., would poll a larger vote than Schmitz.

Schmitz was deposed after being convicted on a charge of extortion. The candidates for 18 other municipal and county offices were to be voted on today.

MAKE FOUR ARRESTS IN ELECTION FRAUD

Pittsburgh, Sept. 28.—The police early today added another man to the four prisoners they already held in connection with the alleged ballot frauds in last Tuesday's primary election. They gave his name as Hugh Getty, and with his arrest said they had the situation in the first ward well in hand. Other arrests were promised as soon as evidence that had come to them during the night could be confirmed. This evidence, it was said, concerned attempts made yesterday to secure possession of ballot boxes from the polling places where they were stored after the ballots had been counted.

PRISONER KILLS ONE, POSSE IS ON TRAIL

Salem, Oregon, Sept. 28.—Three during a hand to hand encounter, posesses were close on the trail early today of Otto Hooker, an escaped convict who shot and killed Harry P. Minto, superintendent of Oregon State Penitentiary, last night after he had previously wounded J. J. Benson, city marshal of Jefferson. Both officers were shot while endeavoring to take Hooker into custody.

Hooker escaped from the prison work gang during the afternoon. He had served a year of a sentence for burglary and was considered a quiet prisoner.

Marshal Benson was wounded by a bullet from his own weapon, which was wrested from him by Hooker.

This will be done it is said, to avoid action which might justify Greece in feeling she was called upon to intervene under the terms of her treaty of alliance with Serbia.

Meanwhile the Petit Parisien's correspondent asserts Bulgaria proposed to have 25,000 Macedonian irregulars attack Serbia, but details of this plan became known in Nish and preparations were made by Serbia for a possible attack.

BIBLE STUDENT TO DISCUSS PROHIBITION

Columbus, Sept. 28.—Bible study in many phases was discussed in addresses made today before the first Ohio State Bible Class convention at its opening session here. Hundreds of delegates from all parts of the state attended the meetings, which will continue through tomorrow evening.

Prohibition also was a prominent subject for discussion by speakers and among delegates. It was said before the convention closes to endorse the prohibition amendment. The first session today was devoted to a conference of adult superintendents of Sunday schools Bible class leaders, pastors, county prohibition workers and Sunday school officers.

Dr. J. D. Derling, of Columbus, secretary of the Ohio State Sunday School Association, was on the program for an address, and Edmund F. Arras, of Columbus, had a paper on the subject, "Adult Class Organization and Enrollment." Rev. Charles L. Fisk, of Cleveland, superintendent of the Ohio Congregational Sunday school, and Publishing Society, was on the program for today.

POLICE ARRESTED

Newark, O., Sept. 28.—Charles B. Hager is in charge of the night force of policemen. He was released under bond.

PRIMARIES ARE HELD IN NEW YORK

New York, Sept. 28.—Primaries were held throughout the state today for the selection of candidates of all parties for state and county offices to be voted for in the fall election. As there will be no gubernatorial election this year, the highest officers for which nominees will be chosen today were those for justices of the supreme court.

The contest between Charles A. Perkins, the present district attorney, and Frank Moss, for the Republican nomination for district attorney of New York county, aroused the greatest interest in this city.

FRAUD TRIAL ON IN PARIS

Paris, Sept. 28.—The trial of Hans Scapira, Paris representative of A. Musica and Sons, of New York, who was charged with defrauding bankers and others of sums aggregating \$260,000, was begun yesterday in the correctional court.

The accused declared in his defense that he himself was a victim of the Musicas, having lost his own money which he invested in the United States Hair company. The case was continued.

The Musicas, father and three sons, were arrested in New Orleans in 1913, charged with swindling banks here and abroad by false importations and exportations of hair goods.

OLD VETERANS SEE MESSAGE OF PEACE

Washington, Sept. 28.—Veterans of the Grand Army of the Republic, in their forty-ninth annual reunion, awoke here today to see wig-wagged from the dome of the capitol a message of peace.

Men who were boys fifty years ago, returning again to celebrate a mighty conquest, had climbed during the night the long, winding stair that lead to the Statue of Justice, which crowns the capitol, and had flared to the warring old world a word of hope for peace.

This was the ushering in of the second day of the Grand Army assemblage, which will reach its height on Wednesday, with the re-marching of the men who returned from Appomattox in 1865 to receive the plaudits of the nation. The survivors who made the climb at the capitol, were members of the Veterans' Signal Corps and old comrades on Georgetown Heights flashed back an answer.

The veterans had before them a day of sightseeing tours about the defenses of Washington and expeditions to historic spots, the day to be brought to a close with an address of welcome from President Wilson in the reunion headquarters at Camp Matthew G. Emery.

ARMY IS BATTERED BY ALLIES' ATTACK

Paris, Sept. 28.—Intelligence from the Champagne front beyond Châlons which reached Paris today shows that it was the right of the German crown prince's army which was shattered in the attacks of Friday and Saturday.

The crown prince's center made furious efforts to counter in the Argonne yesterday, with the result that all railway lines to the east and north, according to French information were engaged last night in carry away German wounded.

French officers reckon that the crown prince's army lost 100,000 men in this attack and previous assaults during the summer.

The plan of attack of this army has been the sending in masses of two divisions or about 40,000 men at a time against French works. These engagements—each one equal in importance to some of the great battles of history—have been dismissed hitherto with brief references in the French official communications because the results were only negative—Germans captured recently testify that the resistance of the French has been as destructive as the offensive and that their artillery fire of deadly effect a year ago, has now attained such intensity as to work demoralization among their opponents.

In yesterday's attack the Germans sent two divisions against the French lines, after a preparatory bombardment. The artillery fire did not demoralize the French line, which held everywhere when the German infantry charged. The two German divisions broke, leaving the ground dotted with their dead. Three times the Germans renewed their assault, making the attacks with extreme courage. Each time they retired leaving more dead. Many of their wounded are still lying between the lines. Although the attacks of the crown prince have been violent and well organized, French officers say the drive against Verdun is being transferred gradually into a defense of Metz; for the French are creeping slowly and steadily closer to the Lorraine stronghold.

PARIS IS OPTIMISTIC OVER LATE VICTORIES

Paris, Sept. 28.—The people of Paris show no signs of becoming unduly optimistic, as fresh details reveal the full measure of success of the operations at Arras and in Champagne. The public realizes fully that it is only the beginning, but they believe it justifies great hopes for the future. Although the attempt of the German crown prince at a diversion in the Argonne failed, it is expected this was only the first of the efforts he will make to regain the ground lost.

Military writers point out the strategic importance of the section of Champagne singled out by General Joffre for the smashing blow which was so tellingly delivered. The flat ground permitted the infantry to advance with such speed on both flanks that the German reserves were caught and smashed before they were able to join in the fight. It is asserted that French artillery now must command the railroad built by the Germans to supply their troops around Rheims.

The main object of the operations lies further north, however, military experts believe. It is the main railroad system over which provisions and munitions pour from Germany. If the French get within striking distance of this system of communications, the whole German line must fall back. It is expected, therefore, that the Germans will make stupendous efforts to keep their forces intact and that the fighting which ended with the capture of their first line of defenses was child's play compared with what will be required to break the second, third, and perhaps even fourth and fifth lines which lie behind.

Evers Says Alexander Will Win It

ALLEXANDER will beat the Red Sox in the world's series. This statement, coming from Johnny Evers, captain of the Boston Braves, sums up just what the 1914 world champions, and every other team in the National league, think of the Quakers' chances in the battle for the big title.

He told me less than two weeks ago that he would ask Moran to start him in the first game, and then come back in the second. Last winter, when the all star teams made that trip to Honolulu, Alex pitched and won three games in four days, two by shutouts, and the American league team was a pretty nifty combination at that.

"Moran's club plays 50 per cent better ball behind Alexander than it does behind the other pitchers, although the boys have a lot of confidence in Chalmers, who I think will work in at least one of the games."

The Braves, although six and a half games behind the Phillies, have a chance. Moran's boys must lose seven of the next nine games while they have to come through with a straight run of victories to cop. still, the boys are out there fighting, and they haven't given up all hope.

Boston Preparing For The Big Noise

Boston, Sept. 28.—Although this was an open date in major league schedules for Boston teams, the day was an active one in baseball circles.

The Red Sox virtually certain pennant winners in the American League, were busy in preparation for the world's series in which they expect to meet the Philadelphia Nationals.

As the local games will be played on Braves' field where the Red Sox are strangers, Manager Carrigan ordered his players out to test its lights and shadows, said to be unusually trying because of the great sweep of stands, to study the bound of balls from the new laid paths and turf and to judge the flights of balls with respect to the great distances of the most extensive playing field in the country.

On the same field the world's champion Braves kept in trim for the coming of the Philadelphia Nationals for a two game series. Captain Evers said his teammate still had hopes of pulling the National League leaders down to a point within reach of another Brave success.

An augmented staff of clerks in the offices of the Boston Americans worked steadily at the growing pile of applications for world series tickets.

A. A. TO RETRENCH

Chicago, Sept. 28.—Club owners of the American Association met here today to plan for the 1916 season.

The question of the players' limit and the make-up of the circuit were the principal subjects up for consideration. There will be at least one change in the league next season, it was reported. Cleveland, according to some of the club owners will be dropped and the club placed in Toledo.

for and that the player limit will be sixteen, the same as during the last season, was the opinion expressed. The question, it was said, probably will be offered a five months' contract next season.

Buckeyes Blanked

The Waits Station Farmers defeated the Seale Purpus Buckeyes yesterday afternoon in one of the fastest games of the season, the score being 1 to 0. Two men were down in the ninth with Bolander on third. R. Hansen singled to right, Bolander scoring and ending a well earned victory. Batteries, Buckeyes, Wade and Wade; W. S. F., Bolander and Hansen. Bolander has lost but one game out of eighteen this season.

COLLINS GOES TO BOSTON

Pittsburgh, Sept. 28.—President Barney Dreynell announced today that Edgar Collins, an outfielder, had been released by the waiver route by the Pittsburgh National League club to the Boston Braves.

FANS TO WATCH MAYER

The work of Frankie Mayer of the Phillies will be closely watched by local fans when the world's series is held off. Mayer has pitched a grand ball this season and he is a favorite. The Mayer of this city. It is likely that Mayer will run close to Alexander for pitching honors during the big noise.

Spiders Claiming City Championship

The Spiders by defeating the Clippers Sunday at Straus park, claim the amateur championship of the city and county. This team has been beaten only five times this season. The Spiders' big inning was the fourth, when a three-base hit, two two-base hits, a single and a fielder's choice netted four runs.

May Ditch Gilmore

St. Louis, Mo., Sept. 28.—There is a strongly defined rumor here that President James Gilmore of the Federal League is to be deposed as head of the organization and another man will have been very prominent in baseball, elected to the position.

Presidents Ward and Stearns of the Brooklyn and Newark Federal League clubs, respectively, are mentioned as leading the opposition to Gilmore.

SAYS THE FEDS ARE PLAYING MORE GAMES THAN ARE BOOKED

St. Louis, Mo., Sept. 28.—J. G. Taylor Spink, publisher of the Sporting News, the official organ of organized baseball has had men at work checking up the games played by the Federal League teams as contrasted with those scheduled, and announced today that, although the league season has but more days to run, more games than the number scheduled have been played.

According to Spink, if these extra games were thrown out Chicago would be leading the league by one half a game. He says that the Federals have played double-headers where the schedule called for but one game and this was done to offer a counter attraction to organized baseball. He cites as an instance that St. Louis has played twenty three games with Pittsburgh and the same number with Newark, where the schedule calls for twenty-two.

RED SOX WELL SUPPLIED WITH CATCHERS

The Boston Red Sox are well stocked with backstops for the coming world's series. Carrigan, the catcher and manager of the team, has not been doing very much behind the bat, but can be counted on in a pinch. Cady has been catching about twenty games and has been hitting a little below 500. Thomas has been doing most of the catching and probably will be the mainstay behind the bat for Boston in the big series.

Carrigan (left) Cady (top right) and Thomas.

Reds Drop Two Games

Cincinnati, Sept. 28.—The Reds were locked in the close and hard-fought game with the Phillies Monday night, but they were unable to hold their lead and dropped the game.

Members of the Boston Braves must leave themselves out of the National pennant race. They are picking the Phils to beat the Boston Red Sox. They say that the Phils will win four out of six from the Beantown crew.

COL. POOR ATTENDANCE AGAIN

Philadelphia, Sept. 28.—There will be no major league baseball games in Philadelphia until next Saturday. The game scheduled between Philadelphia and the Chicago Americans today was played in a double header last Saturday. Those with Washington tomorrow

and Thursday have been transferred to the National capital and Friday's scheduled game with the New York Americans will be played in a double header here on Saturday. Poor attendance is given as the reason for the changes in the schedule.

BIG GAMES START SATURDAY

Several Ohio football eleven's started the annual campaign last Saturday, but the real opening parade comes at the end of the week. Ohio State and Ohio Wesleyan play in Columbus. Oberlin next Saturday will go to Maaca to play Cornell. Willamette goes over to Richmond, Ind., to meet Earlham. Cincinnati will open at home with Georgetown, a Kentucky aggregation, tomorrow's at-home first party will be

with the Marshall team of Huntington, W. Va. Al Athens, Ohio will be at home to Ohio Northern. Miami travels to Ivy Case. Kenyon will invade nearby Wesleyan. Kenyon and Mt. Union will play at Alliance and Heidelberg, the team that secured Oberlin last Saturday, will appear in Wooster. Reserve will go against Hiram.

DRESSED FOR MARDI GRAS

Charles Heinisch has discarded his mustache, and the bunch about police headquarters has been cruel enough to suggest that Charley is now "fixed" for the Mardi Gras parade.

CLAIMS TO HAVE SEEN MEANS MAKE ESCAPE

Jesse Gardner, a former constable of East Portsmouth, claims to have seen Robert Means making his escape after the shooting of Walter Benson at Seintoville, Saturday. Gardner says he was standing on top of one of the new bridge piers and plainly saw Means, armed with a shotgun, making direct for the Kentucky hills. Gardner says it is rumored that he has since visited the scene of the shooting after dark.

Ed Hunter, a former storekeeper of Elliott county, Ky., has purchased the grocery business of his brother-in-law, D. O. Tipton, at No. 2301 Eighth street. Mr. Tipton has left the city. The former father, J. W. Hunter, purchased the fine brick building in which the grocery is located.

AS TO FEE SPLITTING.

A new law has gone into effect in Ohio which makes it a crime for physicians and surgeons to split fees, and it is encouraging to note that the law is backed by the great majority of the reputable physicians of the state. It seeks to correct an evil that has grown to some proportions and which has worked out to the serious disadvantage of patients, especially those compelled to undergo operations.

Writing of one phase of fee splitting in the Chicago Daily Tribune, Dr. W. A. Evans says that "an open fee splitter confesses his incompetence. The very competent operators do not split fees. They know they are competent and they get, and will get, the business which comes to them, on a basis of merit. The operators who split fees, are second and third grade operators. Therefore a patient who is being disposed of by a fee splitter among fee splitters, may be certain that the best he can get, is one of the best he can get among second or third grade men. He can be certain that he never has a chance to get the services of any high grade man, of any man good enough to get business on his merit alone."

Dr. Evans then asks this significant question—"If physicians bribe patients among fee splitters as a commercial transaction, will not unnecessary operations be the inevitable result? If a physician diagnoses an infected appendix and sends the patient to a fee splitter, it is not possible that the diagnosis will be confirmed, regardless of the condition found, and an unnecessary operation done?"

It is suggested that those about to undergo operation, investigate for themselves, satisfy themselves that they are getting a square deal from their regular physician, and also that the reputation of the man who is to operate upon them is above suspicion or question as to the fee proposition. It is an easy matter to satisfy one's self before an operation. It may be too late to find out after the operation that the patient has gone to second or third grade man.

HIGHWAY PATROL SYSTEM.

The attorney general has ruled that under the new law the county surveyor does not have charge of the highways, bridges and culverts under state control until designated by the state highway commissioner to have charge. It is further held that the state highway commissioner may establish a system of patrol maintenance of state roads, and the county superintendent, under direction of the commissioner, may establish such a system for county roads. This is opened at last a practical method of caring for the roadways and it is to be hoped that County Surveyor Harper will avail himself of the provisions of the new law at the earliest opportunity. Under the patrol system a man is appointed to have charge of a certain number of miles of county or state road and he is held responsible for the upkeep of his section. If a rut develops, he is supposed to fix it up in its incipency and not wait until the break has spread over the road for a considerable section. The patrolman looks after his section just as do section men on a railroad, and keeping his road up to a high state of efficiency. He is the man who is on the job all the time, ever keeping a watchful eye for signs of deterioration of any part of the road under his control.

The advantages of such a system of maintenance is apparent to every one. It is a system that has worked out to splendid advantage in other states and it is about the only method by which steady and permanent care can be taken of roads.

It will, of course, take a little time to get into working condition under the new road law, but as soon as practicable, we would like to see the patrol system tried out here. We believe it will be most satisfactory and, in the end, be much cheaper.

We met a man who has real money the other day and he remarked that he recently bought a block of Chesapeake & Ohio stock, laid it away in his strong box and expected, in the course of the next few years, to realize handsomely upon it. He got in at a low mark and already the stock has advanced twelve or fifteen points. This man is not a speculator. He just watches for investments and banks on his judgment to make good. He said that once he held a certain stock ten years before he got his money out of it. No, we are not advising you to buy C. & O. or any other stock. This investment is purely a matter for you to work out yourself, or to talk over with your banker.

Just as a matter of curiosity, we would like to ask Prosecuting Attorney Micklethwait if that agreement with the C. & O. Northern in regard to pikes which he is now condemning, was not drawn up by himself? If so why did he not give the commission the benefit of his criticism before the contract was signed. If he drew the agreement, was he not obligated as legal advisor of the commissioners and as the law officer of the people, to advance any safeguards that might suggest themselves to him?

The more we read about Serbia and the Serbians, the less reason or sense we see in the rest of Europe fighting about her. A more poverty-stricken, unprogressive, unattractive country would be hard to find anywhere on this earth.

OUR GROWING ENTHUSIASM.

SLAMMING PROSPECTIVE GUEST.

Of course since the B. & O. S-W. has not yet put palace cars into commission on the Branch, we have not been able to sample the kind of cooking that obtains in the domicile of Editor Funk, of the Oak Hill Press, but still it seems to us that it is very bad form to talk about a prospective guest the way Funk did about us in the last week's issue of his paper. He must be afraid that we will eat him out of house and home and in his fright seeks to head off our visit. But he can't do that for we are more than ever determined to go to Oak Hill and re-establish our reputation along conservative and temperate lines. Of course after being slammed as we were in the article which is appended, we shall have to be a little cold and distant in manner. Here is the offending article:

"The Portsmouth Times paragrapher ate, at one sitting, the whole of a fourteen layer cake baked by that estimable woman, Miss Irene Houston, and has at other times partaken of meals equally as big, yet he is still hungry. Harry must either have a very sweet tooth or a big stomach. He is always looking for something to eat. He watches The Press pretty closely as is shown by the following:

"It is fine to be a country editor. Up at Oak Hill Editor Funk is being showered daily with all sorts of good things and he is kept busy acknowledging the presents in his valuable journal. A basket of peaches, a bushel of tomatoes, a lot of 'fine juicy apples which the wife made up into the finest pies and 'as ever seen in Oak Hill,' a 15 pound head of cabbage and a few messes of 'big healthy beans' were among the things that found their way to the larder of this fortunate editor. Who would not be jealous of a man with such a constituency? Why, we are minded to move The Times plant up to Oak Hill and consolidate."

"Now we would not mind a consolidation of The Times and The Press plants—there sultant product would be a world beater—but we could not possibly stand for an associate editor with such gastronomic feats as Mr. Taylor possesses."

"The Times man is jealous of our constituency, and right well he might be. There are no better people on the face of the earth than are found in and around Oak Hill."

Lawrence county commissioners are after traction line contractors on account of their destruction of roads. That is all right for the contractor has slaughtered some sections of the Portsmouth Ironton pike. But it has not been so noticeable because the rest of the same pike from the Scioto county line on into Ironton is so fearfully bad that the new bad places are noticeable only as other new bad places.

Many a woman who just doted on narrow skirts last year would be inexpressibly grieved if she had to wear one with her new fall suit this year. We saw a wide, fluttering skirt go down street yesterday, and in it was a very contented woman. Her husband wears trousers of the vintage of 1913, and a hat just like one he wore in 1908 and is equally content.—Gallipolis Tribune.

UNDER VAGUE INFLUENCES.

(Ohio State Journal.)

We take the following from a Cincinnati dispatch to show the influence upon legislators of their so-called reunions:

Representative John F. Kramer of Richmond County, Democratic floor leader, and Representative L. T. Cronley, of Mt. Vernon, both known as conservative members of the Democratic and Republican sides of the house, said they see clearly how seriously the cities need power to provide more funds.

Now we know with whom these legislators have been talking. It has been with the contractors, the politicians and the money spenders generally, and not with the taxpayers, who want their communities conducted on the basis of their needs and not of their whims. The tax payers have to bear the brunt of these legislative reunions because the tax spenders and their allies are the men with whom the legislators are brought into contact.

The Cincinnati people raised \$15,000 to entertain these legislators. Why? For the general welfare? Don't you believe it. These jamborees are as far distant from the general welfare as the North star is from old Canopus. The public good is not advanced by such demonstrations. There is nothing lofty or inspiring about them. Having a good time at somebody else's expense doesn't prepare a man for courageous duty.

And then, if these legislators have time to accept favors and go cavorting over the land, why do they not spend some of it in studying their duties to the people, so they will be able to use it to draft legislation that the attorney general and the supreme court are forever trying to tell the meaning of. The spirit that takes delight in jamborees is not the spirit that is behind clear and wise legislation.

We were much interested the other day in the interview given out to the press by the Rev. Mr. Connell, former pastor of Bigelow church. And then we were more interested in reading a volume called "The Damnation of Theron Ware", which was loaned to us by one of our friends as a sequel to a little discussion we had about the Connell case. The "Damnation" book is decidedly apropos and we suspect that our churchly friends of mature minds might also be interested in reading it.

The government moves slowly, its wenders to perform, and it refuses to take into account matters of local moment. Thus the steps have been torn away from our post office building and at the rate the work is progressing it is a dead sure bet that the work of reconstruction will not even be fairly started by Korn Karnival time. A more inopportune time to start the work could not have been selected.

We refuse to get blue over yesterday's weather because we just feel in our bones that the weather man is going to give us the best kind of weather in the shop for our Korn Karnival. He gave us a bad deal last year, but he is going to make it up this time. See if he doesn't.

DO YOU RECOGNIZE THIS?

In the October Metropolitan there is a little automobile story entitled "It Can't Be Done Without a Blue Book", in which there is a clever description of a detour road that will instantly appeal to every motorist. Here it is:

"Do you know what a detour is? It's the motorists' jinx—the meanest thing that can happen on any trip, and there's liable to be an epidemic of 'em any time in any parts of the country. It comes without warning, like mumps or mumps. It makes a gloomy (faded) tour out of a pleasure trip, an endurance contest out of a car which may become impatient and bust. A detour takes you through woods and fields laid up or down like a scenic railway, with boulders on the track and ditches on the side. As a dog slakes a rat, so a detour slakes an auto, while the poor pleasure seekers call out the reserves from every muscle in their corpuses to hang on, as they cuss and strain and weep through the awful ordeal. You're simply lifted back to the trail blazing pioneer days and every man is his own ancestor."

It would be fine to have the Mount Builder relics secured at the Tremper mound displayed here during the Korn Karnival, but it is doubtful if they will be allowed to leave the museum at Columbus. They may be considered too valuable to run the risk of transportation. Anyway we hope a point can be strained and the relics shown here.

People who have been over the paving on the Buena Vista pike say that Contractor Monroe has done a fine piece of work. Now when the West Side gets the new bridge, the new towpath and the new hill road, it will come into its own again.

NEW-YORK-DAY-BY-DAY.

O. O. MCINTYRE.

New York, Sept. 28.—Rome or Paris are not more tender hearts than New York. James Montiglia was killed by Olivia Bellini. Her paramour had cast her off because he was tired of her. There was no dispute as to the facts. The judge used every effort at the trial to check any emotional appeals.

The woman's two babies were removed from the court room, and he did not permit her to testify to events leading up to the crime and he told the jury that a woman has no more rights than a man before the bar. The verdict was simply "Not Guilty."

There was not even a compromise of manslaughter or a lower degree of murder. The jury decided that the killing was no crime. The woman cannot be placed in jeopardy again and in the judicial annals of the South there was never a more perfect example of the "unwritten law."

It isn't often that the fat ladies get the chance, so back to the sparkling waist ad in a New York newspaper:

"Good opportunity for bright young lady with large corporation."

National guardsmen are getting angry too over the harm they believe the "I Didn't Raise My Boy to Be a Soldier" song has done. Captain Charles J. Dieges, of the state guards, writes the following parody:

I didn't raise my boy to be a coward;
I want him to be brave and good
and true;
I'd disown him if he were not ready
To die defending country or virtue.

It seems to be generally agreed upon that nobody raised Capt. Dieges to be a poet. Either that or "virtue" must be pronounced with a sneeze emphasis on the final syllable.

The passing on of Anthony Comstock takes away probably one of the best known figures in New York. Sometimes his name came into ridicule by excess of zeal but the net result that he accomplished was good. Many times he stamped out evils and other times he convinced the public how ridiculous pendency is.

Forty-three years ago indecent books and pictures were sold openly by vendors on Broadway. There was a law against it but no one was especially appointed for its enforcement.

Subway construction in New York has been fraught with more fatalities than the actual operation of trains in the completed tubes, exclusive of persons run down by trains. The collapse of the street about the subway workers, last week, however, marked the worst catastrophe of all.

Whether the shoring of the subway out in Seventh Avenue was cardboard or whether the persons in charge of the blasting were criminally careless remains to be disclosed.

Nine hours after last week's subway accident—at five o'clock on the same day patrons of twenty-two moving picture theatres in the city were seeing on the screen views of the disaster. The bookings were made by phone.

E. A. Bushnell, the cartoonist, after leaving the New York Evening Mail decided to go to California on some special work when he began to get letters from editors out west asking where his cartoons were. Bushnell decided that if they wanted them enough to ask about them they would buy them so he will remain in New York and syndicate a daily cartoon over the country.

PENDULUM SLOWLY SWINGING TOWARDS MOTORIZATION

Looks Like Council Will Motorize All City Fire Companies

The city council at a caucus meeting Monday night practically decided against motorizing the city fire companies on the piecemeal order instead developing a strong sentiment favoring the motorizing of the whole department.

While the various members expressed themselves as disliking another bond issue it was agreed that one must come sooner or later for the upkeep of the companies and that it would be less expensive in the long run to invest the money in motor apparatus.

It was pointed out by Chairman Charles W. Wilson, of the fire committee, that the interest on \$30,000 bonds, the amount required for the motorizing of the companies, will be more than paid by the elimination of the big horse feed and shoeing bills. The feed bill for alone last year amounted to over \$1800 and the shoeing between \$300 and \$400. Four or five new horses will have to be purchased for the department unless motorized and was shown that at least one new team is needed annually.

Upkeep of Big Auto Was \$58

The total expenses of the upkeep of the auto engine at the Gallia street house last year was only \$58, and it made every run of the company. In Cincinnati, Cleveland, Columbus and other cities the ladder equipment which makes all runs cost less than \$2 per month to operate them. Mr. Wilson also called attention to the fact that the present companies are undermanned and that, unless motorized, at least two additional men will have to be put into service. During the noon hour on three days of the week there are only five men at the Seventh street engine house to hitch six horses in case of an alarm. Such a condition has existed for some time, and was mainly responsible for the disastrous results of the Portsmouth Gas Company's office fire almost two years ago.

City Has Outgrown Fire Equipment

The city had grown remarkably it was argued, in the past ten years but its fire department has not proportionately kept pace with it. It was contended by Mr. Wilson that two-thirds of the expense of motorizing the department should be centered in the Seventh street company because of its close proximity to the business district. He figured that it would cost \$19,000 to motorize this company and \$6,000 to motorize the hill top company.

The equipment favored by the fire committee for the Seventh street company is a latest improved 85 ft. aerial ladder truck with water pipe attachment that can be hoisted in a second or two time, placed at any kind of angle to throw a stream of water into upper floors and operated from the ground; also a combination hose and chemical wagon with pump attachment and a tractor motor under the present steamer. Two propositions are entertained for the hill top house, firstly a combination hose and chemical wagon and motor under the present steamer or a combination hose and chemical wagon with pump attachment, the first combination wagon with a capacity of 150 gallons per minute and the latter one with a capacity of 350 gallons. The latter one alone would, it is believed, answer all future needs of the hill top district. Mr. Wilson expressed himself as opposed to placing a tractor under the hill top steamer.

Council Swinging To Motorization

While no definite action was outlined it was plain to be seen that the councilmen are gradually

rounding to the opinion that complete motorization is the better plan and early and favorable action along that line is now to be expected.

The absence of Messrs. Guiker and Slump, who were busy participating in the Knights of Pythias festivities, caused a postponement of the hearing on the "jitney" regulation ordinance.

Street car men and "jitney" owners were both on hand with good sized delegations and their legal counsel, Judge A. Z. Blair, fairly loaded down with documents and data with which to present the "jitney" side of the controversy and Judge Noah J. Dever ready to look after the interests of the car men, while Judge John O. Miller was present to represent the street railway company.

Want All Members Of Council Present

It was mutually agreed that best results could be obtained with the entire membership of council present and in this the council fire and police committee of which Mr. Wilson is chairman, commended the committee leaving it to the attorneys to get together at some future date and agree upon a time for the next meeting.

After all others had taken leave the councilmen dismissed the "jitney" ordinance informally. A Lima newspaper was read telling of a similar campaign for jitney regulation in that city and indicating that it is no further advanced than Portsmouth in that regard, preliminary meetings having accomplished but little. The license there will probably be less than \$25, some Lima councilmen believing that figure rather high while the proposed license fee for Portsmouth is \$80. Several of the councilmen expressed themselves as strongly opposed to having the license fee that high and said this together with other radical provisions made the whole campaign appear as not one of "jitney" extermination. It was argued that once the jitneys are regulated and licensed, backmen might have to be licensed next or the cry of class discrimination would be raised.

The members evidently mean to deliberate carefully in the "jitney" matter and hope to strike a happy medium that will be satisfactory to both sides and properly protect the public at large.

MOONSHINERS ARRESTED

MYSTERY SURROUNDS MURDER OF ACTRESS

Marguerite Favar, actress, the divorced wife of the famous band leader Grantoro and the widow of F. D. Tompkins, U. S. army officer who killed himself in Los Angeles some years ago, was recently mysteriously murdered in Memphis, Tenn. Revenge, jealousy and robbery are the three motives for the crime advanced by the police, whose search for the murderer has thus far been without result.

What Boys Are Like. In the American Magazine Frances L. Garside, writing under the title "Just Boys," contributed the following paragraphs: "If a boy is quiet, everyone wonders what he is up to now, and if he is noisy everyone knows and disapproves. When a boy enters a room in which there are seated the members of the family and his dog, he always speaks to the dog first."

SCHOOL BOARD WILL BE ASKED TO MAKE ADDITION TO HIGH SCHOOL

"Peggy" Davis Victim Of Mysterious Cutting Affray

Fred "Peggy" Davis, a one-legged negro, was the victim of a mysterious cutting affray that occurred in the rear yard of the Davis family home near Twelfth and Railroad streets, shortly after 11 o'clock, Monday night. Davis was attacked in the dark and although he could distinguish the outlines of the knife user sufficiently to give a fair description of him claimed he did not know him. The police searched for Jack Haynes, aged 30 years, a strange negro, who they believe

did the cutting but were unable to find him and he is thought to have escaped, on an N. & W. freight train. Haynes is said to be a gambler who usually frequents the city on N. & W. pay days. He had been rooming at "Deno's" Spalding's home and remarks dropped by persons there when the officers first reached the house strengthened suspicions that it was Haynes who had slashed Davis. The wounded negro was rushed to Dr. E. W. Hubert's office on Findlay street. Just aft-

er the colored physician had started sewing up his wounds City Physician Dr. W. D. Schaefer arrived and the patient was turned over to him. Davis had a cut four inches long on the left side of the head but the wound that was causing him the most trouble was a cut over the right eye, that severed the temple artery and caused him to almost bleed to death before medical aid reached him. The city service wagon removed him to Hempstead hospital where he was reported up and around Tuesday morning.

Because of overcrowded conditions at the magnificent new High school building, it is imperative that more floor space be provided for Supt. Appel to care for the increased enrollment, and Supt. Appel will go before the school board at its next meeting and urge the necessity of adding another wing to the building. "This can be done without marring the symmetry or architectural beauty of the building," Supt. Appel stated today, and "I believe the board will take favorable action on the matter."

"The addition can be built on the northeast of the building, which was so arranged that a wing could be tacked on it at any time," Supt. Appel stated. The addition would fill out the quadrangle to the northeast and would provide for the additional floor space that is badly needed. The High School enrollment at present is 550 and in February 80 more students will be admitted, which will put the enrollment past the 600 mark.

Couple To Marry

It has just leaked out that Elmore Lewis, a master at the Selby shoe factory, and Miss Nellie Ross, a pretty young Hill-top girl, are to be married Wednesday. They will for the present make their home with the bride's parents.

WOMEN MAY PARADE ON PRANCING STEEDS

E. W. Richard has started a movement to have a group of ladies on horse-back in the Boosters' Parade on Wednesday, evening of the Carnival. Portsmouth has a number of proficient horse-women, and all of them will be asked to enter their mounts in the parade. The matter has been placed in charge of Mrs. M. A. Carr, wife of the secretary of the Business Men's Association. A place will be reserved for them in the parade.

MEET TONIGHT

All members of the Fraternal Parade committee and representatives from the different lodges are urged to attend the meeting of the Business Men's Association offices in the Masonic Temple this evening at 7:30 o'clock. Final arrangements for the parade will be made, and the attendance of every man is desired. The formation and line of march will be decided at this meeting.

Are Making Effort To Locate Means

Nothing new has developed in the Seaboard shooting affair of last Saturday in which Walter Busson was instantly killed by the discharge from a shotgun, supposed to have been discharged by Rogers. The three women, Mrs. Sarah Means, Mrs. Mary Allen and Anna Rogers are still being held at the Walker Means, a shantyboatman, county jail as important witnesses. Means is still at large, and his nesses for the state.

RECALLING HANNIBAL'S PASSAGE OF THE ALPS; AUSTRIANS ROLLING ROCKS ON FOE

An Austrian device for rolling rocks down the mountains onto Italian troops.

In the mountain warfare now being waged between the Italians and the Austrians, the latter, it will be seen from the above photograph, are resorting to a method which, it might well be said, is "as old as the hills." The rolling of great stones and boulders down a precipitous mountain-side onto an enemy below is a very ancient but still effective mode of bombardment, as the Italians who are trying to make a passage through the Alps are willing to testify.

Dee York Has Leg Fractured In A Football Scrimmage

Dee York, son of Raymond D. York, of Highland avenue, had his left leg fractured Monday afternoon in Portsmouth High School football practice, at Sixteenth and Findlay streets. Young York was playing a quarter-back on the first team. The two teams were having scrimmage, when York and Paul Savel crashed into each other.

Fellow-players carried York to the office of Dr. W. A. Quinn, on Ninth street, but as he was not home, they took him to the High School, where Drs. Albert Bernot and Quinn reduced the fracture. Theibia, the main bone in the leg, was fractured.

The injury was the first serious one to be recorded since football practice was started three weeks ago. York was in the backfield last year and was counted on as the team's regular quarter-back for this season.

The Movies

Mary Pickford in "Rags" Columbia Today

Mary Pickford, called by many "the spirit of the screen", whose every appearance in motion pictures is as much an assurance of entertainment value as Tiffany is of jewelry merit, is appearing in the picturization of Edith Barrow Delano's latest novel, "Rags", a title and a character that fit the star as has no other play in which she has ever been presented, even including her last screen triumph, "The Dawn of a Tomorrow," and "Little Pal".

This five-part production of the Famous Players Film Company on the Paramount program is a delightful combination of comedy and drama, both of which elements of the story are thoroughly human. After the perfect acting of Mary Pickford, the story deserves the greatest praise.

"Rags" is the daughter of a drunkard, who abuses and mistreats her, but whom she loves with all the ardor of her strong young soul. Her mother was loved by a wealthy man, to whom however, she preferred the worthless man she married, dying after the birth of her daughter. How "Rags", through the invisible influence of destiny, becomes so enmeshed in the web of fate that she meets the nephew of the man whom her mother rejected, and falls in love with him, though realizing that his social position is too far above hers to ever permit a marriage between them, and how eventually her mother's lover learns of her unhappiness and takes her to his palatial home to live with him, where his nephew again meets her, and in the new surroundings renews his love, are convincingly and sympathetically related in the photoplay.

This is considered "Little Mary's" best picture since "Tess of the Storm Country" and you had better come early as she is sure to have a big reception today with this picture.

Matinee begins promptly at 1:30, then at 2:45 and 4:00. All seats for matinee shows 10 cents. First evening show at 6:30, then at 7:45 and 9:00. Evening prices, adults, 20 cents and children 10 cents.

Chaplin Review At Arcana Today

When one comes to consider that it is claimed by film people, who are supposed to know, that twenty million people pay each day to laugh at Charles Chaplin, there seems to be plenty of reason for Manager Potts to arrange for the "Charlie Chaplin Review" which will be presented today at the Arcana.

The Chaplin Review consists of five reels of Mr. Chaplin's most popular successes and in this film he is supported by an array of comedy stars, the like of which one seldom sees in one evening's entertainment. Among the most prominent is Mabel Normand, Mack Sennett, Roscoe Arbuckle and Ford Sterling.

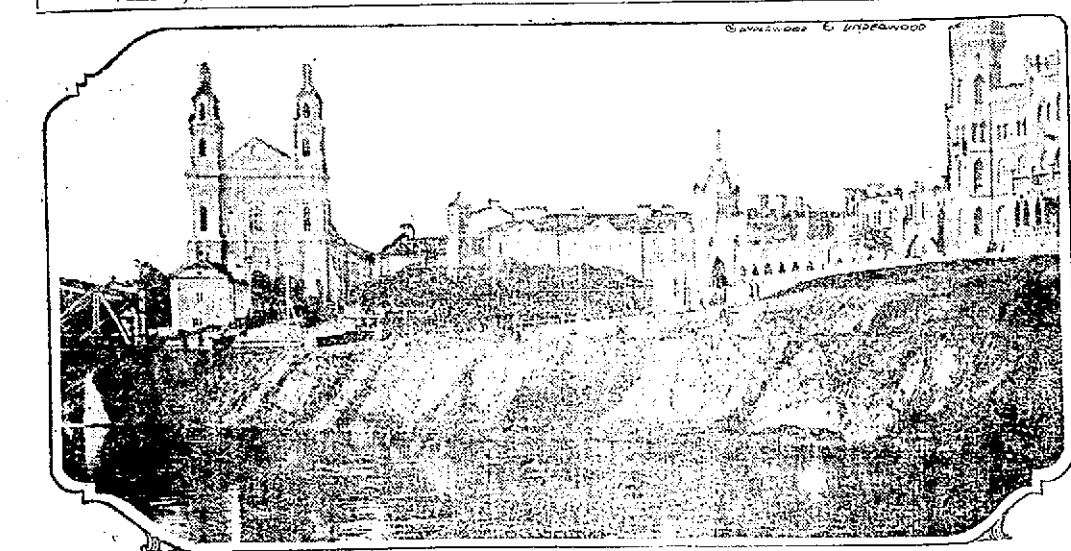

This is the first time the Review has been attempted in films. The Chaplin Review is fashioned after the famous Ziegfeld Follies, presented each year at the New Amsterdam Theatre, New York City. This theatrical production has become an institution in New York, and its arrival each year is awaited with keen interest. It is considered by far the theatrical event of the season.

The management of the Arcana has arranged to run the first show at 11 a. m. and the performance will run continuously until 10:30 p. m. in order to accommodate the crowds. This attraction is presented at popular prices. Adults, 10 cents, and children 5 cents.

Gracious Manners.

The charm of gracious manner and consideration for other humans belongs to a quality that develops rapidly if given half a chance. The woman who is always kind creates an atmosphere of loveliness that is like a halo about her head. If you are naturally shy and reticent it is all the more necessary that you should endeavor to shine a bit. It is not lack of pleasant thoughts that worries the self-conscious, but the fear of giving expression to them. You must try to make yourself companionable to others.

VILNA, SCENE OF GREAT BATTLE BETWEEN THE GERMANS AND THE RUSSIANS

A view of the river front of Vilna, showing Cathedral of St. Stanislaus and Russian barracks. It is in the neighborhood of Vilna, one of the largest cities in western Russia and of great strategic value, that the Russians are now making a desperate effort to escape from the Teutonic net. The Russians are slowly fighting their way to safety although still menaced by von Hindenburg's encircling movement.
